FLIGHT OF GENERALS SPELLS HUERTA'S DOOM

By Associated Press.

Washington, D. C., December 3.—The flight of Huerta's generals in northern Mexico, Federal evacuation of Chihuahua and Guaymas and the refusal of the Mexican oil companies to furnish fuel for movement of Federal troop trains, were pointed out by officials here today as such events to which President Wilson referred in his message to Congress yesterday when he declared the Huerta regime to be crumbling "little by little every day." Diplomatically, there has been no developments. Some diplomats were inclined to see in President Wilson's expression of hopefulness that when Huerta had been forced from power good government should be restored by "the concert and energy of such of Mexico's leaders as prefer the liberty of their people to their own ambition."

MESSAGE SCORED

By Associated Press.

Mexico City, Dec. 3.—An outline of the message delivered by President Wilson to Congress at Washington was prominently displayed by all Spanish morning papers today. In commenting on the message of the Independent, which is controlled by the government says:

"The man at the White House has dared to affirm against the truth universally conceded) that Provisional President Huerta is losing sympathy every day and that his fall is to be expected. It was hardly believable that President Wilson would have the temerity to assert such a thing. He thereby gives testimony of his bad faith toward things Mexican." The Partial says: "From good sources it is known that some of the foreign ministers here criticize the message severely. They say it would be impossible to guarantee the re-establishment of peace and good government if Provisional President Huerta, whose vigorous efforts at the pacification of the country are well known, should leave the presidency."

TREAT WITH REBS

By Associated Press.

Mexico City, December 3.—The news that General Salvadore Merced, commander of the Federal forces in northern Mexico, has sent a military peace commission from Chihuahua to Juarez to treat with the Rebels, while denied vigorously in official circles, is regarded as the most serious blow yet struck at Federal prestige. In view of Provisional President Huerta's statement that he never would treat with the Rebels, it is considered impossible that the peace commission has been sanctioned by him. At the same time, however, it is pointed out that the appointment of a commission is in line with the recent suggestion made by Aureliano Urrutia, when at the head of the Ministry of the Interior, that overtures might be made to the rebels without governmental sanction.

DIAZ ACTIVE

By Associated Press.

Mexico City, Dec. 3.—The War Department today ordered the name of Gen. Diaz transferred from the retired to the active list. The orders are dated Sept. 20th.

SHORT BATTLE

Mexico City, December 3.—A sharp fight occurred today only a few miles from the Federal capital between a small detachment of rural guards who were caught in ambush by a body of the followers of Emiliano Zapata. The rural guards returned the fire of the rebels for twenty minutes, after which the rebels are said to have fled to the hills. The casualties on both sides numbered three dead and twenty or thirty wounded.

RELEASED ON BOND

By Associated Press.

Mexico City, December 3.—H. S. Kidder, general traveling sales agent for the Waters-Pierce Oil company, was released today on a \$2500 bond, at San Luis Potosi, after having submitted to a trial by Federal authorities on a charge of sedition. He was arrested November 27 for complicity in the dynamite operations on railroads.

He was formerly a railroad engineer and has lived many years in Mexico. The American consul was present at the trial.

Oil Interests In Mexico Are Vitrally Concerned In the Crisis

Photos by American Press Association.

As the Mexican situation grew worse it was apparent that the term "oil war" might become a popular newspaper expression. Mexico, as is well known, is one of the most lucrative oil producing countries on the earth. Some of its best concessions at Tuxpan are controlled by the Pearson interests of England, of which Lord Cowdray is the dominant figure. It was because of the threats made by the rebels to burn the English wells at Tuxpan that the English squadron of cruisers was rushed to the east coast of Mexico. A picture of Lord Cowdray is here shown, with a view of two of his oil wells. There are hundreds of wells like these clustered close together at Tuxpan. The Standard Oil also owns immense fields in Mexico.

WOMEN DEMAND A COMMITTEE

By Associated Press.

Washington, D. C., December 3.—The Suffrage Convention was suspended for a few hours today while a delegation moved on the Capital to urge a favorable report by the House Rules committee on a resolution to create a standing committee of Woman's Suffrage in the House. Women suffragists have long been pressing for a hearing on the resolution. Women of the anti-suffrage movement have been granted a hearing in opposition to the resolution and they will appear later.

The scene resembled the charge of a citadel when more than 1000 Suffrage delegates closed in on the Capital. The women advanced in regimental formation in quick step order and crowded the hearing room before the committee arrived. Dr. Anna Howard Shaw, president of the National American Woman's Suffrage Association told the members it was not the purpose of the speaker to convert the congressmen to Suffrage, but to convince them that the Suffrage movement was entitled to a House committee equivalent to a similar one in the Senate. Mrs. Ida Husted declared to Suffrage movement had grown to national proportions, justifying a House committee.

PARDON BOARD HAS 31 APPLICATIONS

By Associated Press.

Columbus, Ohio, Dec. 3.—When the State Board of Pardon meets tomorrow, 31 applications will be considered, among which will be that of Leslie Humphries, under sentence of death, who asked commutation to life imprisonment. Humphries was convicted of killing Samuel Kelly, who came with him to Columbus from West Virginia.

WATER 10-FT. DEEP

By Associated Press.

Waco, Texas, December 3.—Water was still ten feet deep in the streets here today. The flood was the greatest in history.

Policemen and firemen worked all night getting more women and children safe out of East Waco after a levee broke. The main business thoroughfare of East Waco today was a mill race from end to end. Business houses and residences in the deepest part of the flood remained unmoved, but some of the lighter structures appeared to be in no position to withstand a further rise.

TRIAL PROCEEDS

By Associated Press.

Shelbyville, Ind., December 3.—In the effort to disprove the suicide theory, the state today introduced witnesses in the trial of Dr. Wm. B. Craig, who testified that the fatal wounds in the neck of Dr. Helen Knabe began on the right side of the throat. A right-handed person committing suicide would naturally draw the knife from left to right it was contended. Coroner Charles O'Durham was the first witness in the morning session.

SPUG CHAIRMAN

By Associated Press.

Washington, D. C., December 3.—Miss Margaret Wilson, the President's eldest daughter, became chairman of the local Spugs today at a mass meeting of more than 1000 women at which the Society for Prevention of Useless Giving was organized. Mrs. August Belmont and others who have carried the movement forward in New York City, spoke.

MAY ARREST PANK

By Associated Press.

Plymouth, England, December 3.—It is understood that preparations are under way for the arrest of Mrs. Emaline Pankhurst, militant suffragist, upon her arrival from America tonight on the steamer Majestic.

It is understood that a force of suffragettes plan to be on the spot ready to fight for their leader.

TWENTY-SEVEN LOSE LIVES IN HOTEL FIRE

By Associated Press.

Boston, Mass., Dec. 3.—Twenty-five men were killed and scores injured in a fire which swept the Arcadia hotel and lodging house in S. Boston early this morning. Many are missing and scores are in the hospitals suffering from burns and from injuries received in jumping.

Nearly all of the bodies were so badly mutilated that identification is impossible. Those caught in the fire were mostly men in poor circumstances who had sought a night's lodging.

Caught in crowded bunks on the top floor of the five story brick building and in small rooms on the fourth floor, the men were helpless. When they were aroused the stairways were roaring furnaces, and a mad rush followed. Nearly all of the men were naked. Many were rescued by the firemen and police.

Some escaped by walking a shaky plank laid across to an adjoining building, while others leaped across a five-foot alley to an adjoining roof.

Although the property loss is only \$25,000, the loss in lives is almost unbelievable. William Walsh, states that there were 178 lodgers in the building when the alarm was spread by a newsboy who was passing by.

MORE BODIES FOUND

By Associated Press.

Boston, Mass., December 3.—Two more bodies were found in the ruins during the forenoon, bringing the death list up to 27. Before the ruins had cooled two investigations were begun by the Grand Jury and by the Building Inspection department.

SKULL FRACTURED BY HEAVY BLOW

R. C. Karney Seriously Injured in Wilmington and Wife Leaves Today for His Bedside—Was Unconscious for Some Time and is Not Yet Out of Danger—Assailant Well Known in Wilmington.

As the result of an assault committed upon him during an altercation with a man named Taylor, in Wilmington, Tuesday, R. C. Karney, local contractor, is still in a critical condition suffering from a fractured skull, and Mrs. Karney went to Wilmington Wednesday afternoon to be with him.

The two men are said to have become engaged in an altercation over some work on the new Baptist church which Mr. Karney has under contract, and Taylor seized a piece of timber with which he struck Mr. Karney a heavy blow over the head, rendering him unconscious for some little time and causing a fracture of the skull, it is claimed.

Mr. Karney was taken to the office of a physician and after the physician had worked with him for some time, he revived, but has since been unable to leave his bed.

William Taylor, the man who struck the blow, has not been arrested at last accounts, and as he is well known about Wilmington, has not made any attempt to elude arrest. The Mayor was out of the town at the time, which probably accounts for no arrest being made.

Taylor claims to have struck the blow in self defense.

TOO MANY HOLIDAYS

By Associated Press.

Charleston, W. Va., December 3.—Coal operators are endeavoring to put a stop to so many holidays among their employees in the West Virginia fields, by making the observance of holidays more uniform.

The various nationalities have different holidays, with the result that some of the men are idle much of the time in order to celebrate.

In some mines last year the celebrations caused a loss of 47 working days.

TOBACCO POOLING

By Associated Press.

Washington, D. C., December 3.—Arguments in defense of the state law enabling farmers to pool their tobacco were made today to the Supreme court by Attorney General Garnett of Kentucky. Thomas Malone, a Mason county farmer, has attacked the law as unconstitutional. Attorney Garnett contended that the statute was not in conflict with the Sherman act.

A man with a grouch can find fault where it doesn't exist.

CITY DIVIDED BY COMMITTEE

Plans Made For Cottage Prayer Meetings to be Held in All Parts of the City at Same Time—Total of 216 Meetings to be Held in Eight Days' Time.

The simultaneous revival committee held an enthusiastic meeting last night and divided the city into nine districts, appointing a captain for each district, who is to be responsible for the meetings in his district.

It is expected that at least three meetings will be held in each district on each of the eight nights of the meetings—Dec. 9, 12, 16, 19, 23, 26, 30 and Jan. 2nd, making at least 216 meetings.

In some districts more than three meetings a night will be held.

Printed invitation cards will be furnished for the use of the host in whose home the meeting is held.

Description of districts and names of captains will be published within a few days.

In the meantime the committee desires more homes where meetings may be held. Send names to Jas. Minshall, C. E. Lloyd, Albert Snider, Carey Persinger or Bowman Hostetler.

The trial of Dr. William B. Craig, the Indianapolis college professor charged with the murder of Dr. Helen Knabe two years ago, is attracting attention. The large picture of the accused man was made in the courtroom, while the smaller one was taken as he entered the building.

ROYAL Baking Powder Absolutely Pure

There is a remarkable interest in Home Baking and Cooking throughout the land.

This is a most encouraging indication that the battle against impure, improper food is going to be won.

The credit for the victory will belong to the women of the country.

Home cooking has the backing of science and the approval of fashion. It adds to housekeeping a pride; to our food, healthfulness.

It is acknowledged by experts, and by the women who know, that the best cooking in the world to-day is with the aid of Royal Baking Powder.

PRIMARY IDEA QUITE POPULAR

Washington, Dec. 3. — Steps have already been taken by the Democratic leaders to carry out the recommendations made by the president in his annual message, that nominees for the presidency hereafter be chosen through direct primaries and without the intervention of nominating conventions. Bills are now in course of preparation and will be introduced in the house and senate within a few days.

The appearance of the presidential primary idea in the president's address was a complete surprise to leaders of all parties in Washington and aroused more interest and comment than any other feature of the president's utterances.

It already is apparent that the house will pass a presidential primary law such as the president desires at this session. The president's reference to it in his address was widely applauded by the Democrats and drew expressions of enthusiasm also from Republicans and Progressives.

Representative Rucker of Missouri, chairman of the committee on election of president, vice president and members of congress, which will have jurisdiction over the proposed legislation, announced that he will call his committee together within a few days to frame a bill in accordance with the president's views. His committee will report such a measure early in the new year.

Senator Kern of Indiana, chairman of the senate committee which will have charge of such a bill, was less enthusiastic. He said his committee would not take the initiative, but would await the presentation of bills by individual members. Senator Owen of Oklahoma immediately announced, however, that he would prepare a bill carrying out the president's recommendation.

In urging the presidential primary plan on congress Mr. Wilson went far beyond the pledges of the Democratic platform on this question. The Baltimore document advocated "presiden-

tial preference primaries" for the states, at which the people would indicate their choice of candidates, but did not contemplate relieving the convention of power to nominate. The president's proposal that after candidates have been nominated at the primaries, conventions composed of members of congress and nominees for congress and members of the national committee and candidates for the presidency themselves shall be held to adopt party platforms, is unique. It is this feature of the plan that may excite opposition. Objection was made by many, among them Senator Kern, that platforms should be framed by delegates fresh from the people instead of by officeholders.

SELLS \$50 WORTH FOR A COOL \$400

Clarksburg citizens are still wondering how Col. Lon Sweptson managed to sell \$50 worth of pies, cakes, jellies and aprons at a recent church entertainment, for \$400.

Sweptson is still laughing over the affair, which he "pulled over" upon those in attendance by taking bids from persons who were struck dumb with amazement when they were mentioned the successful bidder.

Celery at 21 cents per bunch and jelly at 25c per glass were some of the prices obtained.

Everyone took the affair good naturedly and even want to hold another sale.

GUARDING AGAINST CROUP.
The best safeguard against croup is a bottle of Foley's Honey and Tar Compound in the house. P. H. Glan, Middleton, Ga., writes: "My children are very susceptible to croup, easily catch cold. I give them Foley's Honey and Tar Compound and in every instance they get prompt relief and are soon cured. We keep it at home and prevent croup." Blackmer & Tanquary. adv

SECRETARY OF THE TREASURY MAKES PUBLIC FIRST REPORT

By Associated Press.

Washington, December 3.—Secretary McAdoo's first report to Congress, delivered today, is largely confined to the review of the achievements of the Treasury Department in matters that have been of nationwide interest; to recommendations for increased appropriations for bureaus under his authority and for legislation, which, he declares, necessary to the better conduct of the government and the protection of the people.

The Secretary discussed at some length the subject of currency legislation reviewing the activities in his Department related to it. He speaks of an unrest in business circles following the beginning of the special session of Congress in April, refers to a "propaganda of pessimism which designedly or not, produced a condition of extreme nervousness and tension" and points to his announcement in June that the treasury was ready to issue \$500,000,000 of emergency currency under the Aldrich-Vreeland Act to prevent restriction of credits and to ease any situation.

Mr. McAdoo outlines the Treasury's loan to banks of the country money to move the fall crops. The sum of \$46,500,000 out of \$50,000,000 estimated to be needed was apportioned among the states.

PERMANENT NEEDS.
After praising the psychological value of these incidents, the report continues:

"They demonstrate clearly that any improvement in our financial system which will permanently establish confidence will in itself be an immense gain, and if that improved financial system assures the opportunity to secure at all times the necessary funds and credits to meet the expanding and legitimate needs of the commerce and industry of the country, it will be an achievement of enduring benefits."

"These incidents also show conclusively the enormous value of an altruistic governmental agency in the financial affairs of the country. So long as the government has the power to intervene in a beneficial and unselfish way, the danger of panics and of unjust practices will be largely, if not wholly, destroyed. This is one of the chief objects sought in the proposed reformation and reorganization of our banking and currency system."

TARIFF LAW YOUNG.
Of the new tariff act Secretary McAdoo says it has not been in force a sufficient length of time to make possible an accurate estimate of its ultimate revenue producing powers. He asks Congress to impose a nominal tax of one per cent proof gallon on all alcohol withdrawn for denaturation, and legislation requiring every dealer in leaf tobacco to make an inventory of stock January 1 of each year and make a report of his transactions quarterly or monthly, and that every dealer be required to give bond.

The present oleomargarine law is declared to be unsatisfactory and the government is said to lose more taxes from illicit practices in oleomargarine than through moonshine stills. The difference in the tax on colored and uncolored "oleo" is held responsible for the loss and Congress is asked to impose a flat nominal tax without any difference for color with provision for individual stamped or original packages of certain sizes adequately marked and safeguarded. The law governing the sale of adulterated butter is declared to have brought about unfortunate conditions through the difficulty of its just enforcement.

RECOMMENDATIONS.
Among his principal recommendations to Congress the Secretary placed the following:

Enlargement of the Public Health Service and a closer cooperation with State authorities to prevent and stamp out epidemics of disease.

Building of four revenue cutters, for need of which the Secretary points out, the service is seriously crippled.

Consolidation of the Revenue Cutter and Life-Saving Services into one organization to be known as the Coast Guard. Such a consolidation,

the Secretary says, would increase the efficiency of each service with the idea that the new Coast Guard should become a first naval reserve in time of war. The increase in cost would be about \$400,000. In that connection the Secretary also recommends passage of legislation for the retirement of life-savers on pension, and declares that unless some such measure is made law, the efficiency of the service will be impaired and it will become increasingly difficult to obtain good men. He gives point to his argument by showing that the Revenue Cutter and Life Saving Services saved 4,423 lives in 1913 and salvaged property worth more than \$16,000,000.

FOR SAVING LIVES.
Establishment of Revenue Cutter headquarters at Louisville or Cincinnati, at St. Louis, or some other point on the Upper Mississippi and at Helena, Ark., or Vicksburg, Miss., is urged as a measure for the saving of life in the flood time in the Ohio and Mississippi valley. Three light draught cutters to cost about \$80,000 each are recommended. With the rivers at normal stage they would be used in patrol to enforce the navigation and motor boat laws.

The report refers to the requirement that banks which hold government deposits made April 30, 1913, pay interest at two per cent, declaring that it means an annual revenue of \$2,000,000 to the government and showing that if such a regulation had been made in 1897 the government would now have received in interest more than \$30,000,000.

INCOME TAX.
The income tax is not dwelt upon at length, but the report estimates that 425,000 individuals are subject to it and the corporations not heretofore subject to tax will number about 150,000.

ALLEGED CURES.
"On account of the announcements of discoveries of alleged cures for tuberculosis and their bearing on public health, important investigations of them have been undertaken. Studies of the Friedmann treatment were sufficiently advanced by May 16, 1913, to justify a report that the observations made up to that time did not warrant the confidence in the remedy which had been inspired by wide-spread publicity. This investigation is being continued, as are also studies of other preparations claimed as cures."

HOW ONE PRIZE ACRE WAS GROWN

Here is the process that is required before one acre of Fayette county land will produce 102.3 bushels to the acre. The process is told by Howard Vannorsdall, as follows:

"My acre of corn was grown on timothy and clover sod, which had been pastured for two years. The field has been under cultivation 45 years. It has been run hard until recent years. 25 spreader loads of manure were hauled on the acre in September, 1912. The ground was broke before the March floods, five inches deep. 300 pounds of fertilizer was sown before the seed bed was prepared. It was double cut May 8, 1913. It was dragged and planted May 12.

I used Reed's Yellow Dent and planted it 3 feet 4 inches apart both ways, three grains in a hill. I replanted all the hills having less than three stalks in a hill, May 30. I ran the weeder over it June 2. It was not cultivated till the corn was 4 inches high, June 10.

"The second cultivation was made June 17 and 18. It was laid by June 30.

"In July I cut all the weeds that I missed by cultivating. This was all the work I did on the acre.

"It made 102.3 bushels of shelled corn when husked.

"The trip gotten by me was given by The Washington Savings Bank, Washington C. H., Ohio and a desire to thank the Directors and Stockholders and Officers for their kindness."

FOYE OBJECTS

New York, Dec. 3.—James E. Foye, the young bank clerk who has been held here awaiting extradition for the larceny of money from the banking firm of Charles Brown & Company, and who had announced that he would not oppose extradition, changed his mind suddenly when a Philadelphia officer went to the Tombs to get him. His attorney sued out a writ of habeas corpus to prevent his removal to Philadelphia.

A Square Deal for Our Merchants

After an unusually warm Thanksgiving season and winter sidetracked from her fierce onslaught of a few weeks ago, it takes the slogan "only a few more weeks till Christmas" to rouse Christmas shoppers to the fact that they must be up and doing.

Waking to the Christmas call, people will find that, far from being deceived by Spring temperature, Washington's progressive merchants have never been so fully prepared for the holiday season.

As if by magic the Christmas spirit is abroad. Our stores blaze with Christmas allurements and offer tempting and beautiful displays that might entice old Kris Kinkle himself.

Washington C. H. certainly ought to be proud of them, as they flaunt their splendid holiday raiment. They are by no means little town stores; they are establishments; splendid department stores of metropolitan scope and equipment; classy shops, offering choice selections, specialty stores of distinctive lines. They are stores which amaze the transient visitor in their magnificent showing and arouse wonder that Washington C. H. can vie with the large cities in her shopping facilities.

And she not only vies with them, she rivals them. Not alone is the very cream of the finest holiday wholesale markets skimmed by Washington merchants; the prices also give to local buyers great advantages.

A recent visitor from a large city was attracted to a holiday sale scheduled in one of our leading stores, and expressed unbounded surprise over the high class of goods and the low prices put on them. He said that he had attended many sales in his home city, but had never been offered such unusual values.

Undoubtedly Washington merchants have done their full part in preparing for the holiday season. They have put in wonderfully complete and beautiful stocks; they have given to local buyers the same opportunity to buy exclusive Christmas novelties that the people of far larger cities enjoy; they have put staple wares in the background so that the Christmas shopper may have every opportunity, and they have done all this at great expense.

The Christmas trade is by no means a paying one; it often entails loss and no small inconvenience; it means hard work and small profits.

Regardless of all these facts, Washington merchants have done their part to make the Christmas season a success.

How about the shoppers? Are they doing as much to give prestige to our city? Are they giving the merchants a square deal in boosting their beautiful home stores?

There may have been a time when it was necessary to visit Cincinnati, Columbus or Dayton to find large selections. It is so no more. We have stores that are as beautiful as any that these cities show, and altho there may be some larger, the selection is just as good and the class of wares just as high in our own city.

Be fair to the home merchants, who have done every thing to bring the best to the Washington shopper. If you want to visit other cities and see the Christmas displays, take an inventory before you go, and you will find that the novelties which attract in outside cities are duplicated right at home, and very often, at much lower prices.

It is to your interest to have the finest stores in this section of the state and you have them now and can keep them by giving merchants a square deal and encouraging them to continue their efforts by your patronage.

Every line of business would feel the benefit of a large Christmas trade at home. It is nothing more than a fad, and a very poor one, to do your Christmas shopping away from home and to put your money into channels from which you derive no benefit. It is anything but fair to let the kindly merchant wait until you find it convenient to settle your bill of many months standing, and then go off and spend your Christmas cash with a dealer whom you would not think of asking for accommodations!

Our merchants deserve better treatment—Give them a square deal.

America Needs Many More Skilled Workers

By RALPH ADAMS CRAM, Architect, of New York

THE American architect is handicapped almost fatally by the LACK OF GOOD ARTIFICERS to work out the detail. Apart from the industrial arts in their relation to architecture, their importance in this country, where art manufactures or art products are so enormously in demand, is too obvious to need demonstration.

NEARLY ALL OUR EXPERT LABOR IN THE ARTISTIC TRADES IS IMPORTED FROM EUROPE. WE PAY LARGE WAGES TO FOREIGN WORKMEN, BUT REFUSE TO EDUCATE OUR OWN PEOPLE SO THAT THIS FINANCIAL BENEFIT MAY ACCRUE TO THEM.

In other words, our prosperity results in benefiting the alien, and we allow our citizens to degenerate, furnishing no new employment for the rising generation, but fitting it only to those limited callings which already are overstocked and in which it can command but a minimum wage.

Poetry For Today

WHOM SHE'D MARRY.

I would not marry Adam Ant.
For he's too hard and cold.
Tim Idity I would not wed,
I like a man that's bold.

I do not fancy Nich O'Tine,
He smokes too much for me.
Jim Nast might win me if he tried,
But not Sol Emnity.

I'm rather fond of Jack Mino,
He brings me loads of flowers.
And Percy Vere has pleaded for
My hand for hours and hours.

I like dear, clever Hugh Morist,
He's genuinely funny.
As for my folks, they think that I'm
Cut out for Matt Rimony.

Phil Anderer I'd ne'er accept,
Tom Foolery is silly,
Dick Tator I could never stand,
I won't wed Willy Nilly.

I'd ne'er say "yes" to Dan Deffed.
I do not like a pop;
But I'd marry Corn Ucopia
If Corn would only pop.

WOMEN ARE PEEVED

Washington, Dec. 3.—Chagrined at President Wilson's failure in his message to mention the development of the equal suffrage movement in the United States, the National Woman Suffrage association, now in session in Washington, passed by unanimous vote a resolution criticising the president and declaring that he had missed the opportunity of his life. The resolution was framed and presented by Dr. William Funk of Baltimore.

The resolution followed an expression of opinion by Dr. Anna Howard Shaw, presiding officer of the convention. She declared that the president had missed the great opportunity that came to him, adding: "Even Lincoln's opportunity to free a race by a word is not comparable with President Wilson's opportunity to release from the bondage of disenfranchisement half the human family."

INTERESTING BITS OF NEWS

(John E. M. Kerr.)

Two statements by Florence Curtin instructor in the University of Illinois in the November Pacific Libraries are of interest, taken together. The first statement is that "the men and women confined in our prisons are reading from three to five times as many books as the people in any community where libraries are easily accessible." The second statement is this: "There are prisons in which every class of undesirable books is largely represented; there is no prison library which does not have some upon its shelves."

American Federation of Labor has demanded exclusion of all Asiatics and a literacy test for Caucasian immigrants in a resolution adopted at Seattle last week. Also the convention instructed its committee to continue its efforts to obtain limitations of injunctions, workman's compensation for Postoffice employees, enlarged federal department of labor, a bureau of federal health, additional safety appliances on railroads, including automatic stops and abolishment of prison labor.

A GLIMPSE BACK THROUGH YEARS

(By John E. M. Kerr.)

July 11, 1872.

Washington some 40 years ago: In March, 1832, our old friend and present recorder, Mr. Z. W. Heagler, was declared Mayor and in April the council resolved "that they will not license any persons to retail liquor after July 1, next. On July 4, Judge McLean, the first corporation treasurer made his first report. The report read as follows: Cash received from the grocery license and license to exhibit public shows, \$38.75; from which deduct cash paid out on orders on file \$9.51, leaving a balance in the treasury of \$29.24. Taxes levied by this council was 2 mills on the dollar. This by the next report made a better and improved condition in corporation funds, for the balance in 1833 showed \$57.88 in the hands of the treasurer.

In April, 1833, the council proceeded to sell to the lowest and best bidder the building of an engine house 14 feet long, 8 feet wide and 8 feet high, to be located on the public square, adjoining Mr. Parvin's clapboarded log dwelling. The specifications were elaborately drawn, and we find the contract awarded to Thomas Holland, who agrees to furnish all the material and finish the building, according to the descriptions for the sum of thirty-nine dollars. Mr. Holland fulfilled his contract and was allowed seven dollars and fifty cents for extra work making the total cost of the engine house forty-six dollars and fifty cents.

SCORES DEAD

Boston, Dec. 3.—Many persons are reported killed in a fire in the Acadia hotel, a South End lodging house. The police had a report that between 100 and 125 men were in the building when the fire started. They are able to account for only 50. The first ambulance took away 10 badly burned men. Firemen cooled down the burned stairways enough to venture to some of the upper stories to search the bedrooms there. They reported they could see between 15 and 20 bodies.

TEACHER TRAINING CLASS.

A meeting will be held at the Christian church, Wednesday evening, 7:30 for the purpose of organizing a Teacher Training class in the first year course. The book to be used is "Training for Service." All who are interested in this work should be present at this meeting. All Sunday school teachers and all others who wish to know more about the Bible, the Bible school work, and the principles of teaching, should take the course. This course leads to a diploma from the International Sunday School association.

Pimpily? Well, Don't Be!

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets.

A pimply face will not embarrass you much longer, if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Olive Tablets.

Dr. Edwards' Olive Tablets are the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil, you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O. adv

MISSING MAN IS FOUND IN A DAZED CONDITION

Excitement Created by the Mysterious Disappearance of Hugh C. Weir, Who Is Found Three Miles West of City and Relates Story of Being Kidnaped—Buffalo, N. Y., Attorney to Send Detective Here as Bodyguard.

After a search covering a period of several hours and lasting until between eight and nine o'clock Tuesday night, Hugh C. Weir, whose mysterious disappearance early Tuesday afternoon gave rise to the belief that he had met with foul play at the hands of enemies from Buffalo, N. Y., was found lying helplessly along the roadside near the residence of Losson Coil, on the Sabina pike.

His disappearance Tuesday afternoon created no little excitement, and search was immediately instituted for him, but it was not until after eight o'clock at night that Mr. Coil telephoned to this city and informed Mr. Weir's friends that he had stopped there and was in a dazed condition.

An automobile was immediately sent out and the missing man was found on the roadside, in a semi-conscious condition, and was brought back to his home in this city, where he told a thrilling story of being kidnaped by three men in a dark-red, five passenger touring car.

While he was absent parties of friends were searching everywhere for him, and had learned that he had been out walking in the eastern part of town shortly after noon, but had then completely disappeared.

The story related by Mr. Weir when he had recovered, was that

while he was on North street, near the Baptist church, a touring car pulled up to the curb, and he was asked where the Methodist parsonage was, and that as he stepped up to the car he was seized and thrust into the car, a handkerchief crowded into his mouth, a rubber blanket thrown over him and he was whirled away. After considerable delay, due to retracing part of their journey and one man coming back to this city, and also a punctured tire, the machine started onward, with a man called Buck guarding him in the back seat.

"We had gotten a short distance when the man, who had secured my gun, attempted to light a cigar," he said, "and I took advantage of the opportunity to seize the gun and turn it upon him. We struggled for possession of the weapon. One shot was fired. I then gained possession of the gun and fired. The man fell back crying: 'My God, fellows! he's shot me'. I then threw myself bodily from the car. It was getting dark and I staggered back a short distance and hid in the ditch. The machine went onward. Then I must have fainted, but recovered and walked back a mile or so to a farm house, where they were afraid of me, and I started onward but fainted again and did not know anything more until assistance arrived."

Wednesday morning Mr. Weir was able to be about the house, and planned to drive out in a machine in search of clues.

Friends communicated with Collier's attorney at Buffalo, Tuesday night, and the attorney stated that he would send a detective to this city who had been held in readiness since the arrest of Mr. Weir in Buffalo two weeks ago.

GREAT SONG LEADER COMING

The congregation of the Church of Christ, Sunday morning, voted to call H. C. Boblitt to lead the music for the church during the simultaneous campaign and Mr. Boblitt has accepted the call.

He is not a stranger to Washington C. H. as he was here last summer and held a one-night sacred concert in Grace M. E. church, which will be recalled with pleasant recollections by the large choir and congregation that sang under his direction.

His addition to the force of workers will mean much to the meeting.

BLOOMINGBURG PLANS SPLENDID INSTITUTE

The annual Farmers' Institute will be held at Bloomingburg, December 22 and 23, and the probabilities are that a big corn show will also be held at the same time.

Efforts are under way to make the institute even better than the one held last year, and those interested in making it a success are working with a vim.

This is the second annual institute to be held in Bloomingburg and will be one of the best in the county this winter.

GOOD GOODS CHEAP

OLD SUIT IS NOW UP FOR FINAL DECISION

Major George C. Parrett, Well Known in This City, Still Fighting for Fees Claimed to be Due Him for Services as Ross County Superintendent, Who Was Dismissed by Directors—Fine Points of Law Involved.

Local citizens will be interested in learning that Major George C. Parrett, well known former Fayette countyman, is still fighting for what he believes to be his rights, in the Ross county court, where he brought suit several years ago against the Board of Infirmary Directors of Ross county for salary alleged to be due him.

The case was called in Common Pleas court Tuesday, and proceedings are given by the Chillicothe News as follows:

"This is an old case, which has been up to the Supreme court on technical questions and has now been sent back on an amended petition. It has never been tried on its merits. Parrett was appointed superintendent of the Infirmary, Nov. 19, 1908, and took the place Dec. 5, of that year, succeeding O. M. Junk. A newly elected board of Infirmary Directors, by resolution, Feb. 15, 1909, removed Parrett, whose wife was acting as matron, and the removal became effective March 1, 1909. W. F. Seney was then named as superintendent.

Plaintiff sued the directors for \$500, claiming that he had a con-

tract for one year, at \$55 a month, and that the board had no power to remove him. The amended answer of the County Commissioners alleges that Parrett was removed for cause, and that, furthermore, he never put in a claim to the Commissioners as required by law. When the suit was brought it was against the Infirmary Directors and no claim was filed against them.

There seems to be no difference of opinion as to the facts in the case, and the question is mainly one of law, as to whether or not Parrett's employment by the old Board of Directors was a contract for a year, binding on the new Board, or whether the new Board had a right to appoint a superintendent, who they might reasonably believe, would be more in sympathy with them and work with them more harmoniously than one of an opposite political party.

Considerable trouble was experienced in securing a jury, and several special venues were issued. The first called for Nelson Purdam, Jr., William Cahill, Hiram Streitenberger, Harry Levy, Richard Schachne, G. W. Goings, Frank L. Spetnagel, Leroy Reid and Watt Clark.

A jury was secured before noon and the taking of testimony began. The defense ended with its witnesses at 2 o'clock and the plaintiff was called to the stand. The case will probably go to the jury on Wednesday. Elijah Cutright, Jr., for plaintiff; County Attorney W. W. Boulger for defense.

MAP OF MEXICAN COAST, SHOWING POINTS OF TIMELY INTEREST.

Tampico, December 3.—Much of the interest in the Mexican situation centers in the coast cities off which the foreign warships are stationed and where United States marines may land at any moment. In Social Circles

MISS FLORENCE USTICK, SOCIETY EDITOR

A wedding of widely extended social interest took place Wednesday afternoon, when Mr. Clarence Eli Craig, son of Mr. and Mrs. T. H. Craig, of this city, and Miss Edythe Susan Deafner, daughter of Mr. and Mrs. Henry Deafner, of Greenfield, were united in marriage at Hillsboro by the pastor of the M. E. church.

Mr. Craig, accompanied by his sister, Miss Mary, and brother, Robert, motored Wednesday morning to Greenfield, where they were joined by Miss Deafner and her sister, Miss Nelle Deafner, and the trip continued to Hillsboro.

After the ceremony, Mr. and Mrs. Craig took the train for Cincinnati, the rest of the party returning in the Craig car. Upon their return in a few days, they will go to housekeeping in the Kearney house on the corner of Market and Forest streets, their home completely furnished and in readiness.

The bridegroom is one of Washington's well known young business men, the junior member of the firm of Craig brothers, and is popular in society and club circles, to which he has contributed the quick wit and clever repartee which gained for him unusual recognition in his college associations at O. W. U. and O. S. U.

The bride is a charming girl, as bright and interesting as she is natural and unaffected. Frequently visiting here, she has made friends galore in Washington society, and will find a most cordial reception awaiting her. The congratulations of a host of friends in both Washington and Greenfield are extended to the young couple.

Mrs. L. P. Howell entertained the women of the Wednesday Afternoon Euchre club at a charming luncheon of artistic appointments, Wednesday, at one o'clock.

It was a small table luncheon, each table having a dainty basket of Ward rose buds and smilax for its centerpiece.

The Browning club met last evening. President, Mrs. Kerr in chair. Mrs. Duff, secretary, read minutes of last club after which president announced the receiving of the Red Cross stamps and a most appreciative letter from the committee. The fight against tuberculosis is on and the fund from Red Cross stamps will aid both for nurses and medical care.

Two slides were sent and Mr. Johnson and Mr. Mark Mechlin are gratefully making use of them in their picture theaters to display to all their patrons the Red Cross stamp. Committees appointed by president. Miss Goldie Baughn was the accompanist for trio of boy singers, David Craig, Malcolm Ross and Ira Parchet whose songs were greatly enjoyed.

Mrs. Morna Chapman, chairman, took charge of the History department, calling attention to the motto, "No worthy enterprise can be done without continued plodding."

Miss Faith Austin ably developed the topic, "Heroes of South America," beginning in what afterwards became United States of Colombia, under the lead of Don Simon Bolivar, called the Washington of the South. Bolivar went to Europe and became a lawyer and coming to know Napoleon, he took oath to follow his example in France and free South America from the yoke of Spain. In Venezuela he

formed a junta, and Carracas became the first free city. Among the heroes Don Pedro II stands out prominently, coming to throne in Brazil at age of 14 years and Don San Mark who made great efforts for his own country, Chili, and is said to rank with Pericles and the Gracchi.

Miss Goldie Baughn gave a paper on the contrast between North and South America, marking the points of the different climates, vegetation, animal life, extremes of climate are not found in the south as in the north. Such trees as the rubber, and ebony are beyond what the north can give and rich mineral fields beyond the telling.

Mrs. Mae Rogers gave an effective picture of the Gettysburg reunions and what they stand for today when, as at the last one, some 55,000 were gathered from the four corners of the compass, old wounds healed and the men who fought so bitterly met in sweet reunion.

Before adjourning the president called attention to the "Humane Society" of our town and their work and urged membership.

Mrs. John Logan complimented Mrs. George Wood, of Wilmington, and Miss Belle Hibben, of Cincinnati, the guests of Mrs. Alex. Ballard, with an elaborate luncheon at the Cherry Hotel today.

A "bean supper" was the feature of the regular monthly meeting of the teachers of the Presbyterian church Tuesday night, and much enjoyed. It was the last meeting with the retiring superintendent, Mr. Ray F. Zander. Mr. M. E. Hitecock will fill the office of superintendent for the coming year.

Mrs. H. H. Whelpley pleasantly entertained the girls of the Algonquin club at a delicious supper Tuesday evening in honor of the 12th birthday of her granddaughter, Marion Whelpley.

A big birthday cake was lighted with 12 pink candles and a pink and white color scheme carried out.

A number of pretty birthday gifts were received.

BROWNING WOMEN WILL SELL STAMPS

The Browning club women are now engaged in a genuine campaign for the sale of Red Cross stamps for the Christmas season.

Last year this club sold 5000 seals and this year is determined to sell a seal for each inhabitant, which will entitle Washington C. H. to the services of a Red Cross nurse for a month.

The splendid fight waged against tuberculosis all over the United States derives great aid from the funds raised by the sale of Red Cross seals. It is to be hoped that our citizens will actively co-operate with the Browning club.

Seat Sale for "The Village Post-office" opens at Baldwin's drug store at 9:30 Thursday morning.

Admission tickets are on sale at Parrett's grocery, Craig Bros., Cockrell's grocery and the Commercial bank.

Describes Signals From Mars. Geneva.—The Swiss astronomer, Lecoultrre, in making public the results of his researches concerning Mars which have continued for five years, guardedly hints that the Martians have been signalling to the earth. He observed intermittent luminous apparitions resembling the light of powerful searchlights which appeared always in the same spots.

HANDSOME SABLE SET

Though Russian sables cost a small fortune, there are other so called sables on the market that are more reasonable in price. Illustrated here is a sable stole and muff of what is known as Hudson sable. The little toque worn with it is trimmed in military style and with fur to match the set.

The most expensive thing in the world is getting even and it is hardly ever worth the price.

CITY FALLS AT FEET OF VILLA

El Paso, Tex., Dec. 3. — With the federalists out of Chihuahua, residents of that city sent a messenger to Juarez to invite Pancho Villa to come in and invest the town with his rebel army. The messenger arrived in Juarez after making a trip by automobile from Chihuahua city, and presented a signed address to Villa inviting the rebel chieftain to come and take charge of the town.

General Villa loaded his cavalry and artillery on trains, and declared he would be in Chihuahua by Thursday. He will establish himself in the governor's palace there as the new provisional governor of the state of Chihuahua.

Fourteen years ago General Villa was forced to flee from Chihuahua city as a bandit upon killing an army officer for insulting his sister, and he has never been inside the city since that time except once, when he slipped in and killed the police chief for threatening to kill him.

The sum of 5,000,000 pesos, or more than \$2,000,000 gold, the property of General Luis Terrazas, aged Chihuahua multimillionaire, is being carried overland from the city of Chihuahua to the American border by the federal army of 1,500 men, under General Salvadore Mercado, who evacuated the state capital Sunday and struck out for the border at Villa Ojinaja, according to word received by General Pancho Villa at Juarez. The aged general and many relatives, who have been virtual prisoners in the capital for six months, are with the federalists.

General Villa announced that within 10 days train service would be resumed from Juarez to Torreon. Torreon is 527 miles from Juarez and is one of the principal mining towns in northern Mexico. Villa added that Chihuahua will be made the provisional capital of the Constitutional government.

REACH THE GOAL

Washington, Dec. 3.—The Ohio Corn Boys' club, 1,600 strong, arrived here today after an uneventful trip from Harrisburg. While here the boys will be received by President Wilson and Secretary of State Bryan. The boys remained two hours in Harrisburg last night. The party was welcomed by a committee of the Harrisburg board of trade, and at the capitol the boys were complimented upon their skill as farmers by Secretary of Agriculture N. B. Critchfield, Governor Tener, who said that it was to the glory of the state that so many of the rising generation were interested in agriculture, and former Governor Samuel W. Penneybacker. All the speakers praised the Ohio idea of encouraging agriculture by means of corn-growing contests. After the ceremonies the boys paraded the streets through cheering crowds.

TO RESIST ARREST

Plymouth, Dec. 3. — It is believed that when the liner Majestic arrives here, Mrs. Emmeline Pankhurst, who is returning from her tour in America, will be arrested and sent back to jail to complete her sentence of three years' imprisonment for inciting her followers to violence.

The militants here have posted bills on the walls calling upon the public to go to the dock when the steamer arrives and back them up in their fight to have Mrs. Pankhurst set at liberty.

FACTS REGARDING XMAS PACKAGES BY PARCEL POST

Washington, D. C., Dec. 3.—During the next four weeks Uncle Sam's infant prodigy—the parcel post system—will be called upon to perform a herculean task in connection with the transportation and delivery of millions of Christmas gifts.

Christmas parcels should be mailed early. For local delivery they should be mailed not later than December 23d and for out-of-town delivery as early as possible, but in any event in time to reach the offices of destination at least two days prior to Christmas.

Christmas gifts sent by mail should be wrapped securely. The containers or wrappers should be sufficiently strong to withstand the necessary handling incident to transportation and delivery.

Glassware, crockery, Christmas toys easily breakable, glass framed pictures, etc., should be carefully packed in boxes of metal, wood, leather, or corrugated pasteboard with sufficient excelsior, raw cotton or similar matter to prevent the contents from coming into contact with any portion of the box. These parcels should be marked "fragile." Postmasters will refuse to accept for mailing packages that are insecurely prepared.

Parcels should be addressed plainly. The addresses should be complete and plainly written in ink. The regulations require that parcel post packages shall bear the names and addresses of both the sender and the addressee. If a tag is used the names and addresses of the sender and the addressee should also be written on the parcel itself.

Parcels sent in advance of Christmas may be marked "Not to be opened until Christmas," or some similar direction. Written or printed messages such as "Merry Christmas," "Best Wishes," etc., may be inclosed in parcels but no other written or printed communication should be placed therein, as this will subject the parcel to a higher rate of postage. Parcels should not be sealed or otherwise closed against inspection. Sealed parcels are subject to the first-class rate of postage.

Photographs, printed books, and other printed matter are not included in the parcel post but are third-class matter on which the postage

AS MOTHER GOOSE WOULD HAVE SAID.

—Rogers in New York Herald.

rate is one cent for each two ounces or fraction thereof.

Parcels not exceeding four ounces in weight may be mailed in street boxes, when prepared in conformity with the foregoing requirements. The postage on such packages is uniformly one cent for each ounce or fraction thereof. Parcels weighing more than four ounces are mailable only at the Main Office or its Stations.

Ordinary postage stamps are valid for postage on parcel post matter. Christmas stamps or stickers of any kind other than postage stamps should not be placed on the address side of mail matter as this renders such matter unmailable.

Valuable parcel post packages may be insured against loss in an amount not exceeding \$25 on a payment of a fee of five cents in addition to the postage, and for a fee of ten cents such packages will be insured in any amount not exceeding \$50.

GENERAL STRIKE IN AID OF DRIVERS

Indianapolis, Ind., Dec. 3. — One rioter killed, four others wounded, the teamsters appealing to other organizations for a sympathetic strike, their leaders asking that employers arbitrate, and a squad of police armed with riot guns patrolling the streets, are the principal developments of the teamsters' strike.

In all parts of the city drivers were taken from wagons, horses were cut loose from wagons, gasoline was drawn from tanks of trucks and traffic rendered dangerous and in many places impossible. There have been no collections of garbage even from the hotels since Saturday, and this is causing great inconvenience, especially as the weather is unseasonably warm.

The laundries have quadrupled their forces and are gathering their patrons' clothing with men on foot and placing it in bundles at designated places, from which automobiles under protection of the police take it to the laundries. Bakery goods are scarce and the mills are not delivering any flour to the groceries.

The most serious riot of the day occurred on Indiana avenue when an ice company, having provided four well-armed men, attempted to make a delivery. A crowd followed and began to stone the men on the wagon. Two of them were struck, and as they rose all of them drew revolvers and began firing. Claude Lewis, 21, was instantly killed; John Ashley was shot in the leg; J. H. Mason in the abdomen; Archie Smith in the shoulder and A. E. Sedam in the neck. It is thought Mason will die. While the four men were still firing the police arrived and the crowd scattered. The ice wagon drivers were taken to the police station, where business men appeared as bondsmen.

Fifty business men, with horses, were sworn in as the citizens' cavalry. They volunteered to assist the mounted police. Thus far the regular police have been able to handle the situation without calling out the business men's reserves, numbering more than 700.

An effort to call a general strike, in sympathy with the teamsters and chauffeurs' strike, was started at a meeting of the teamsters' union. No definite action was taken, it being decided to wait until the union officers had conferred with the leaders of the central labor union.

PLAYS THE SNEAK

Mexico City, Dec. 3. — A message sent to the Mexican congress by the Colombian congress was read in the senate. The Colombian legislature protests in this message against "the American robbery" of Panama, vilifies Colonel Roosevelt and advocates a Latin-American union "against the Colossus of the North."

Senor Urrutia, vice president of the senate, who presided, decided after reading the Colombian message that a secret session should be called to treat so delicate a matter involving international perils. The senators meanwhile were moving that a cablegram be sent to Colombia saying "sentiments strongly reciprocated," but Senor Urrutia skillfully managed in the secret session to have the message tabled, which means that it will pass unheeded.

ROBBERS KILL

Blythe, Cal., Dec. 3.—Two masked robbers entered the Paloverde Valley bank here and shot and killed the cashier and got away with about \$5,000 in gold and currency. A posse of ranchers and cowpunchers is scouring the mountains in the vicinity of the Colorado river, where the bandits were last seen. Witnesses saw the robbers come through the rear door of the bank with the cashier holding to one of them. The robbers then turned and shot him through the heart.

BELIEVED INSANE

Kenton, O., Dec. 3.—William Lawless, 46, is at the local hospital with gun wounds in his head as the result of a struggle at his home, north of here. Lawless appeared in the kitchen of his home with a gun, according to his wife and father-in-law, William Ralston. Believing that Lawless was about to shoot them they grappled with him. During the struggle the gun was discharged, they say. Mrs. Lawless and her father declare Lawless is insane.

FLAT RAIDED

Columbus, O., Dec. 3. — Silverware and jewelry valued at \$2,000 were recovered in a raid by police on what is believed to be one of the biggest fences ever conducted in Columbus. Tom C. Pennybacker, who is alleged to be a gambler, and his wife, Nanette Pennybacker, the couple from whose flat the stolen articles were recovered, are under arrest.

While a curious crowd stood about the door leading to the flat the police carried out suit cases packed with valuable plate and loaded them into waiting automobiles. The five-room flat, which was richly furnished, was dismantled.

Important Notice To Skin Sufferers

Try this New Remedy at Our Risk

We know the successful treatment of skin affections is difficult, and so much money is spent by sufferers without getting relief, that they are becoming skeptical and know not what to believe.

Our Generous Offer

Know, therefore, all persons who have any skin affection that we will supply them with our new and wonderful remedy—Saxo Salve—on the positive guarantee that if it does not benefit them we will refund their money as cheerfully as we took it.

There is no remedy that will cure every disease—but there are some that we know to be honest, reliable, and of great curative value. Such is Saxo Salve. No skin sufferer should therefore hesitate to try Saxo Salve on this generous offer. We take all the risk and bear all the expense if Saxo Salve fails—but as it succeeds in over 90% of the cases our risk is not great after all.

HUNDRED OWE LIFE TO GIRLS

Fort Worth, Tex., Dec. 3.—Girl tel-
ephone operators at Belton saved a
hundred lives by refusing to leave
their switchboards until they had
warned all families possible of the
onrushing flood in Nolan creek and
the Brazos river, which swept 11 per-
sons to death there. Farmers up and
down the valley were awakened by
the girls and told to flee for their
lives.

Many of the planters at first de-
clined to believe the operators, as a
few hours before the river was nor-
mal. The girls pleaded with them
and begged them to awaken others
in their neighborhoods who had no
phones. The girls awoke large num-
bers in the city and took neither rest
nor food until their warnings had
been sent broadcast. Many of the
homes where warnings were tele-
phoned were later swept away by the
floods. Sixty thousand dollars prop-
erty damage was done in Belton and
the large steel bridge across the
creek collapsed. The rise was 30
feet, the biggest ever known in the
history of the state. Mrs. W. C. Polk
and four young children were drown-
ed when their home was caught by
the flood. A family of five campers
also were drowned, as was an uniden-
tified man.

MAKES PLEA FOR SUFFRAGE

By Associated Press.

Washington, Dec. 3.—When wom-
en have the vote, Mrs. Joseph T.
Bowen, of Chicago, told the National
Suffrage Convention today, they will
give members of their own sex a fair
show in the police courts. Mrs.
Bowen urged the need of women po-
lice, women jurors and reform of the
courts and penal institutions to help
women and children.

"From the time of the arrest of a
woman," said Mrs. Bowen, "to the
final disposition of her case she is
handicapped by being in the charge
of and surrounded by men, who nat-
urally cannot be expected to be as
sympathetic and understanding as one
of her own sex. In the police station
she is at a disadvantage, for such
places of detention in most of our
large cities are not fit for human
habitation. In Chicago the majority
of them are dark and unsanitary.
The women are herded together, the
innocent with the guilty, the clean
with the unclean, the young girl
with the prostitute. The sleeping
accommodations are vile.

"When the woman appears for her
preliminary hearing she is tumbled
and untidy as the result of being
without proper toilet accommodations
and is therefore apt to create an un-
favorable impression. In all police
stations separate rooms or cells
should be provided, with plenty of
light and air and sleeping and toilet
accommodations for the women."

Mrs. Bowen told of what had been
done to meet this situation in Chi-
cago, by the establishment of the
Court of Domestic Relations and the
Moral Court. The latter hears the
cases of women charged with im-
proper conduct.

The percentage of mental deficien-
cy is greater among women in-
mates of correctional institutions,
she said, than among the men. "If
women fall and commit crimes be-
cause of this mental deficiency it
would seem more than ever necessary
to have them examined by a psych-

HEAD FOR CAPITOL

Columbus, O., Dec. 3.—When 1,000
temperance delegates move on Wash-
ington next week, 100 Ohio represen-
tatives will be on the spot to boost
the first plea for national prohibition
by constitutional amendment. So an-
nounced State Superintendent Wheel-
er of the Anti-Saloon league. The en-
tire committee will assemble Dec. 10
at the Raleigh hotel in Washington
and march to the Capitol.

Washington, D. C., December 3.—President Wilson is confined to the White House today with a severe cold. Physicians believe he will be all right tomorrow.

ACCUSES HUSBAND OF LEAVING HER

In a suit filed by Maude M. Landrum, asking divorce and alimony from Joseph Landrum, the plaintiff accuses the defendant of wilfully absenting himself for the past three years.

They were married in August, 1907, and have three children. Rankin and Rankin are attorneys for the plaintiff.

SCAFFOLD BREAKS PAINTER INJURED

William Dyer, a painter, was painfully bruised and suffered a broken knee-cap shortly after noon Wednesday, when a scaffold upon which he was standing gave way and he fell some 12 or 15 feet to the ground.

He was taken to the Hodson hospital where the injured limb was dressed.

NEW MEMBERS ARE ADDED LAST NIGHT

The Fish and Game Protective Association had their monthly meeting last night with a good attendance.

Nine new members joined and G. C. Gooderl, the new game warden, was present. The association now has 40 members with new ones added almost every day. All good citizens who believe in the protection of fish and game are invited to join.

LAST SHOT KILLS BEAR.

Final Bullet Fatal to Charging Bruin Thirty Feet From Lad.

Portland, Ore.—Percy, the twenty-year-old son of C. S. Hill of Hoke Point, Wash., in Cowlitz county, shot what is believed to be the largest bear ever killed in that section.

The young man had to fire seven shots with his 30-30 rifle to end the life of the monster bruin, which charged him from a distance of 300 feet after his first shot had wounded it. The seventh bullet broke its back and laid the animal low when it was within thirty feet.

Percy, in great excitement, ran two miles in seventeen minutes to his father's home with word that he had killed "the largest black bear in creation." After the brute had been skinned and dressed the meat of its carcass alone weighed 225 pounds.

BLOW UP WARSHIPS BY WIRELESS NOW

New Invention Is Secretly Tested In England.

London.—An invention which, when fully developed, promises to reform war has been given a successful test off Portsmouth. Although the admiralty has attempted to keep the matter a secret, it is now definitely known that a mine attached to the bottom of the British cruiser Terpsichore was exploded at a distance of eight miles by wireless impulse.

Some weeks ago the Terpsichore, a third class cruiser of 3,400 tons displacement, 300 feet long and forty-three feet beam, was taken into dry dock, where dockyard hands attached a metal box to her bottom. The cruiser was towed to Stokes bay. Her watertight compartments were then closed and all members of the crew left the ship.

A few moments later the Terpsichore half rose out of the water amidst a vast upheaval of water. She at once took a heavy list to port and five dockyard tugs came to her assistance, keeping her afloat with their pumps while they towed the sinking cruiser into Portsmouth.

LOSES FEET AND WATCH.

Burgeons Cut Off First and Thief Takes the Other.

Philadelphia.—While surgeons of a hospital in this city were amputating the feet of John Guest, who was run over by a train at Bangor, Pa., his gold watch was stolen from his pocket. When he recovered consciousness from the anesthetic he missed the time-piece, and the loss caused a hurried search, but nothing could be found to explain the loss.

Suspicion fell on Paul Reiker, an orderly at the institution. He was arrested, confessed and was held for trial. This led to the discovery that another patient, Frank Price, was robbed of a diamond stickpin while under the influence of ether in the surgical ward, and Reiker also confessed that theft.

How the \$2,000,000 National Lincoln Memorial At Washington Will Look; Work on It Starts Soon.

Work will shortly be started on the erection of the great national Lincoln memorial at Washington. These pictures show how it will appear when completed, based on the architect's drawings. A general view of the memorial is shown, disclosing its dimensions and structural beauty. The other shows a close view of the front. Mounting the steps, the visitor will at once confront an imposing statue of Lincoln. The memorial is modeled after the Parthenon. It will be built of Colorado marble and will cost nearly \$2,000,000. The site is in Potomac park, and the building will be 250 feet long and 186 feet wide. Its height from the base to the top of the memorial hall will be ninety-nine feet.

FLIGHT OF GENERALS SPELLS HUERTA'S DOOM

By Associated Press.

Washington, D. C., December 3.—The flight of Huerta's generals in northern Mexico, Federal evacuation of Chihuahua and Guaymas and the refusal of the Mexican oil companies to furnish fuel for movement of Federal troop trains, were pointed out by officials here today as such events to which President Wilson referred in his message to Congress yesterday when he declared the Huerta regime to be crumbling "little by little every day." Diplomatically, there has been no developments. Some diplomatists were inclined to see in President Wilson's expression of hopefulness that when Huerta had been forced from power good government should be restored by "the concert and energy of such of Mexico's leaders as prefer the liberty of their people to their own ambition."

MESSAGE SCORED PRIMARY PLAN UP IN CONGRESS

By Associated Press.

Mexico City, Dec. 3.—An outline of the message delivered by President Wilson to Congress at Washington was prominently displayed by all Spanish morning papers today. In commenting on the message of the Independent, which is controlled by the government says:

"The man at the White House has dared to affirm against the truth universally conceded that Provisional President Huerta is losing sympathy every day and that his fall is to be expected. It was hardly believable that President Wilson would have the temerity to assert such a thing. He thereby gives testimony of his bad faith toward things Mexican." The Partial says: "From good sources it is known that some of the foreign ministers here criticize the message severely. They say it would be impossible to guarantee the re-establishment of peace and good government if Provisional President Huerta, whose vigorous efforts at the pacification of the country are well known, should leave the presidency."

TREAT WITH REBS

By Associated Press.

Mexico City, December 3.—The news that General Salvadore Mercado, commander of the Federal forces in northern Mexico, has sent a military peace commission from Chihuahua to Juarez to treat with the Rebels, while denied vigorously in official circles, is regarded as the most serious blow yet struck at Federal prestige. In view of Provisional President Huerta's statement that he never would treat with the Rebels, it is considered impossible that the peace commission has been sanctioned by him. At the same time, however, it is pointed out that the appointment of a commission is in line with the recent suggestion made by Aureliano Urrutia, when at the head of the Ministry of the Interior, that overtures might be made to the rebels without governmental sanction.

DIAZ ACTIVE

By Associated Press.

Mexico City, Dec. 3.—The War Department today ordered the name of Gen. Diaz transferred from the retired to the active list. The orders are dated Sept. 20th.

SHORT BATTLE

Mexico City, December 3.—A sharp fight occurred today only a few miles from the Federal capital between a small detachment of rural guards who were caught in ambush by a body of the followers of Emiliano Zapata. The rural guards returned the fire of the rebels for twenty minutes, after which the rebels are said to have fled to the hills. The casualties on both sides numbered three dead and twenty or thirty wounded.

RELEASED ON BOND

By Associated Press.

Mexico City, December 3.—H. S. Kidder, general traveling sales agent for the Waters-Pierce Oil company, was released today on a \$2500 bond, at San Luis Potosi, after having submitted to a trial by Federal authorities on a charge of sedition. He was arrested November 27 for complicity in the dynamite operations on railroads.

He was formerly a railroad engineer and has lived many years in Mexico. The American consul was present at the trial.

Oil Interests In Mexico Are Vitaly Concerned In the Crisis

Photos by American Press Association.

As the Mexican situation grew worse it was apparent that the term "oil war" might become a popular newspaper expression. Mexico, as is well known, is one of the most lucrative oil producing countries on the earth. Some of its best concessions at Tuxpan are controlled by the Pearson interests of England, of which Lord Cowdray is the dominant figure. It was because of the threats made by the rebels to burn the English wells at Tuxpan that the English squadron of cruisers was rushed to the east coast of Mexico. A picture of Lord Cowdray is here shown, with a view of two of his oil wells. There are hundreds of wells like these clustered close together at Tuxpan. The Standard Oil also owns immense fields in Mexico.

WOMEN DEMAND A COMMITTEE

By Associated Press.

Washington, D. C., December 3.—The Suffrage Convention was suspended for a few hours today while a delegation moved on the Capital to urge a favorable report by the House Rules committee on a resolution to create a standing committee of Woman's Suffrage in the House. Women suffragists have long been pressing for a hearing on the resolution. Women of the anti-suffrage movement have been granted a hearing in opposition to the resolution and they will appear later.

The scene resembled the charge of a citadel when more than 1000 Suffrage delegates closed in on the Capital. The women advanced in regimental formation in quick step order and crowded the hearing room before the committee arrived. Dr. Anna Howard Shaw, president of the National American Woman's Suffrage Association told the members it was not the purpose of the speaker to convert the congressmen to Suffrage, but to convince them that the Suffrage movement was entitled to a House committee equivalent to a similar one in the Senate. Mrs. Ida Husted declared to Suffrage movement had grown to national proportions, justifying a House committee.

PARDON BOARD HAS 31 APPLICATIONS

By Associated Press.

Columbus, Ohio Dec. 3.—When the State Board of Pardon meets tomorrow, 31 applications will be considered, among which will be that of Leslie Humphries, under sentence of death, who asked commutation to life imprisonment. Humphries was convicted of killing Samuel Kelly, who came with him to Columbus from West Virginia.

WATER 10-FT. DEEP

By Associated Press.

Waco, Texas, December 3.—Water was still ten feet deep in the streets here today. The flood was the greatest in history.

Policemen and firemen worked all night getting more women and children safe out of East Waco after a levee broke. The main business thoroughfare of East Waco today was a mill race from end to end. Business houses and residences in the deepest part of the flood remained unmoved, but some of the lighter structures appeared to be in no position to withstand a further rise.

TRIAL PROCEEDS

By Associated Press.

Shelbyville, Ind., December 3.—In the effort to disprove the suicide theory, the state today introduced witnesses in the trial of Dr. Wm. B. Craig, who testified that the fatal wounds in the neck of Dr. Helen Knabe began on the right side of the throat. A right-handed person committing suicide would naturally draw the knife from left to right it was contended. Coroner Charles O'Durham was the first witness in the morning session.

SPUG CHAIRMAN

By Associated Press.

Washington, D. C., December 3.—Miss Margaret Wilson, the President's eldest daughter, became chairman of the local Spugs today at a mass meeting of more than 1000 women at which the Society for Prevention of Useless Giving was organized. Mrs. August Belmont and others who have carried the movement forward in New York City, spoke.

Plymouth, England, December 3.—It is understood that preparations are under way for the arrest of Mrs. Emmaline Pankhurst, militant suffragist, upon her arrival from America tonight on the steamer Majestic.

It is understood that a force of suffragettes plan to be on the spot ready to fight for their leader.

TWENTY-SEVEN LOSE LIVES IN HOTEL FIRE

By Associated Press.

Boston, Mass., Dec. 3.—Twenty-five men were killed and scores injured in a fire which swept the Arcadia hotel and lodging house in S. Boston early this morning. Many are missing and scores are in the hospitals suffering from burns and from injuries received in jumping.

Nearly all of the bodies were so badly mutilated that identification is impossible. Those caught in the fire were mostly men in poor circumstances who had sought a night's lodging.

Caught in crowded bunks on the top floor of the five story brick building and in small rooms on the fourth floor, the men were helpless. When they were aroused the stairways were roaring furnaces, and a mad rush followed. Nearly all of the men were naked. Many were rescued by the firemen and police.

Some escaped by walking a shaky plank laid across to an adjoining building, while others leaped across a five-foot alley to an adjoining roof.

Although the property loss is only \$25,000, the loss in lives is almost unbelievable. William Walsh, states that there were 178 lodgers in the building when the alarm was spread by a newsboy who was passing by.

MORE BODIES FOUND

By Associated Press.

Boston, Mass., December 3.—Two more bodies were found in the ruins during the forenoon, bringing the death list up to 27. Before the ruins had cooled two investigations were begun by the Grand Jury and by the Building Inspection department.

SKULL FRACTURED BY HEAVY BLOW

R. C. Karney Seriously Injured in Wilmington and Wife Leaves Today for His Bedside—Was Unconscious for Some Time and Is Not Yet Out of Danger—Assailant Well Known in Wilmington.

As the result of an assault committed upon him during an altercation with a man named Taylor, in Wilmington, Tuesday, R. C. Karney, local contractor, is still in a critical condition suffering from a fractured skull, and Mrs. Karney went to Wilmington Wednesday afternoon to be with him.

The two men are said to have become engaged in an altercation over some work on the new Baptist church which Mr. Karney has under contract, and Taylor seized a piece of timber with which he struck Mr. Karney a heavy blow over the head, rendering him unconscious for some little time and causing a fracture of the skull, it is claimed.

Mr. Karney was taken to the office of a physician and after the physician had worked with him for some time, he revived, but has since been unable to leave his bed.

William Taylor, the man who struck the blow, has not been arrested at last accounts, and as he is well known about Wilmington, has not made any attempt to elude arrest. The Mayor was out of the town at the time, which probably accounts for no arrest being made.

Taylor claims to have struck the blow in self defense.

TOO MANY HOLIDAYS

By Associated Press.

Charleston, W. Va., December 3.—Coal operators are endeavoring to put a stop to so many holidays among their employees in the West Virginia fields, by making the observance of holidays more uniform.

The various nationalities have different holidays, with the result that some of the men are idle much of the time in order to celebrate.

In some mines last year the celebrations caused a loss of 47 working days.

TOBACCO POOLING

By Associated Press.

Washington D. C., December 3.—Arguments in defense of the state law enabling farmers to pool their tobacco were made today to the Supreme court by Attorney General Garnett of Kentucky. Thomas Malone, a Mason county farmer, has attacked the law as unconstitutional. Attorney Garnett contended that the statute was not in conflict with the Sherman act.

A man with a grouse can find fault where it doesn't exist.

CITY DIVIDED BY COMMITTEE

Plans Made For Cottage Prayer Meetings to be Held in All Parts of the City at Same Time—Total of 216 Meetings to be Held in Eight Days' Time.

The simultaneous revival committee held an enthusiastic meeting last night and divided the city into nine districts, appointing a captain for each district, who is to be responsible for the meetings in his district. It is expected that at least three meetings will be held in each district on each of the eight nights of the meetings—Dec. 9, 12, 16, 19, 23, 26, 30 and Jan. 2nd, making at least 216 meetings.

In some districts more than three meetings a night will be held.

Printed invitation cards will be furnished for the use of the host in whose home the meeting is held.

Description of districts and names of captains will be published within a few days.

In the meantime the committee desires more homes where meetings may be held. Send names to Jas. Minshall, C. E. Lloyd, Albert Snider, Carey Persinger or Bowman Hostetter.

DR. WILLIAM B. CRAIG

College Man On Trial Charged With Murder of Dr. Knabe.

Photos by American Press Association.

The trial of Dr. William B. Craig, the Indianapolis college professor charged with the murder of Dr. Helen Knabe two years ago, is attracting attention. The large picture of the accused man was made in the courtroom, while the smaller one was taken as he entered the building.

ROYAL Baking Powder Absolutely Pure

There is a remarkable interest in Home Baking and Cooking throughout the land.

This is a most encouraging indication that the battle against impure, improper food is going to be won.

The credit for the victory will belong to the women of the country.

Home cooking has the backing of science and the approval of fashion. It adds to housekeeping a pride; to our food, healthfulness.

It is acknowledged by experts, and by the women who know, that the best cooking in the world to-day is with the aid of Royal Baking Powder.

PRIMARY IDEA QUITE POPULAR

Washington, Dec. 3.—Steps have already been taken by the Democratic leaders to carry out the recommendations made by the president in his annual message, that nominees for the presidency hereafter be chosen through direct primaries and without the intervention of nominating conventions. Bills are now in course of preparation and will be introduced in the house and senate within a few days.

The appearance of the presidential primary idea in the president's address was a complete surprise to leaders of all parties in Washington and aroused more interest and comment than any other feature of the president's utterances.

It already is apparent that the house will pass a presidential primary law such as the president desires at this session. The president's reference to it in his address was widely applauded by the Democrats and drew expressions of enthusiasm also from Republicans and Progressives.

Representative Rucker of Missouri, chairman of the committee on election of president, vice president and members of congress, which will have jurisdiction over the proposed legislation, announced that he will call his committee together within a few days to frame a bill in accordance with the president's views. His committee will report such a measure early in the new year.

Senator Kern of Indiana, chairman of the senate committee which will have charge of such a bill, was less enthusiastic. He said his committee would not take the initiative, but would await the presentation of bills by individual members. Senator Owen of Oklahoma immediately announced, however, that he would prepare a bill carrying out the president's recommendation.

In urging the presidential primary plan on congress Mr. Wilson went far beyond the pledges of the Democratic platform on this question. The Baltimore document advocated "presiden-

tial preference primaries" for the states, at which the people would indicate their choice of candidates, but did not contemplate relieving the convention of power to nominate. The president's proposal that after candidates have been nominated at the primaries, conventions composed of members of congress and nominees for congress and members of the national committee and candidates for the presidency themselves shall be held to adopt party platforms, is unique. It is this feature of the plan that may excite opposition. Objection was made by many, among them Senator Kern, that platforms should be framed by delegates fresh from the people instead of by officeholders.

SELLS \$50 WORTH FOR A COOL \$400

Clarksburg citizens are still wondering how Col. Lon Sweptson managed to sell \$50 worth of pies, cakes, jellies and aprons at a recent church entertainment, for \$400.

Sweptson is still laughing over the affair, which he "pulled over" upon those in attendance by taking bids from persons who were struck dumb with amazement when they were mentioned the successful bidder.

Celery at 21 cents per bunch and jelly at 25c per glass were some of the prices obtained.

Everyone took the affair good naturedly and even want to hold another sale.

GUARDING AGAINST CROUP.
The best safeguard against croup is a bottle of Foley's Honey and Tar Compound in the house. P. H. Ginn, Middleton, Ga., writes: "My children are very susceptible to croup, easily catch cold. SECRETARY OF THE TREASURY MAKES PUBLIC FIRST REPORT

By Associated Press.

Washington, December 3.—Secretary McAdoo's first report to Congress, delivered today, is largely confined to the review of the achievements of the Treasury Department in matters that have been of nationwide interest; to recommendations for increased appropriations for bureaus under his authority and for legislation, which, he declares, necessary to the better conduct of the government and the protection of the people.

The Secretary discussed at some length the subject of currency legislation reviewing the activities in his Department related to it. He speaks of an unrest in business circles following the beginning of the special session of Congress in April, refers to a "propaganda of pessimism which designedly or not, produced a condition of extreme nervousness and tension" and points to his announcement in June that the treasury was ready to issue \$500,000,000 of emergency currency under the Aldrich-Vreeland Act to prevent restriction of credits and to ease any situation.

Mr. McAdoo makes the Treasury's offer to loan to banks of the country money to move the fall crops. The sum of \$46,500,000 out of \$50,000,000 estimated to be needed was apportioned among the states.

PERMANENT NEEDS.
After praising the psychological value of these incidents, the report continues:

"They demonstrate clearly that any improvement in our financial system which will permanently establish confidence will in itself be an immense gain, and if that improved financial system assures the opportunity to secure at all times the necessary funds and credits to meet the expanding and legitimate needs of the commerce and industry of the country, it will be an achievement of enduring benefits."

"These incidents also show conclusively the enormous value of an altruistic governmental agency in the financial affairs of the country. So long as the government has the power to intervene in a beneficial and unselfish way, the danger of panics and of unjust practices will be largely, if not wholly, destroyed. This is one of the chief objects sought in the proposed reformation and reorganization of our banking and currency system."

TARIFF LAW YOUNG.

Of the new tariff act Secretary McAdoo says it has not been in force a sufficient length of time to make possible an accurate estimate of its ultimate revenue producing powers. He asks Congress to impose a nominal tax of one per cent proof gallon on all alcohol withdrawn for denaturation, and legislation requiring every dealer in leaf tobacco to make an inventory of stock January 1 of each year and make a report of his transactions quarterly or monthly, and that every dealer be required to give bond.

The present oleomargarine law is declared to be unsatisfactory and the government is said to lose more taxes from illicit practices in oleomargarine than through moonshine stills. The difference in the tax on colored and uncolored "oleo" is held responsible for the loss and Congress is asked to impose a flat nominal tax without any difference for color with provision for individual stamped or original packages of certain sizes adequately marked and safeguarded. The law governing the sale of adulterated butter is declared to have brought about unfortunate conditions through the difficulty of its just enforcement.

RECOMMENDATIONS.

Among his principal recommendations to Congress the Secretary placed the following:

Enlargement of the Public Health Service and a closer cooperation with State authorities to prevent and stamp out epidemics of disease.

Building of four revenue cutters, for need of which the Secretary points out, the service is seriously crippled.

Consolidation of the Revenue Cutter and Life-Saving Services into one organization to be known as the Coast Guard. Such a consolidation,

the Secretary says, would increase the efficiency of each service with the idea that the new Coast Guard should become a first naval reserve in time of war. The increase in cost would be about \$400,000. In that connection the Secretary also recommends passage of legislation for the retirement of life-savers on pension, and declares that unless some such measure is made law, the efficiency of the service will be impaired and it will become increasingly difficult to obtain good men. He gives point to his argument by showing that the Revenue Cutter and Life Saving Services saved 4,423 lives in 1913 and salvaged property worth more than \$16,000,000.

FOR SAVING LIVES.

Establishment of Revenue Cutter headquarters at Louisville or Cincinnati, at St. Louis, or some other point on the Upper Mississippi and at Helena, Ark., or Vicksburg, Miss., is urged as a measure for the saving of life in the flood time in the Ohio and Mississippi valley. Three light draught cutters to cost about \$80,000 each are recommended. With the rivers at normal stage they would be used in patrol to enforce the navigation and motor boat laws.

The report refers to the requirement that banks which hold government deposits made April 30, 1913, pay interest at two per cent, declaring that it means an annual revenue of \$2,000,000 to the government and showing that if such a regulation had been made in 1897 the government would now have received in interest more than \$20,000,000.

INCOME TAX.

The income tax is not dwelt upon at length, but the report estimates that 425,000 individuals are subject to and the corporations not heretofore subject to tax will number about 150,000.

ALLEGED CURES.

"On account of the announcements of discoveries of alleged cures for tuberculosis and their bearing on public health, important investigations of them have been undertaken. Studies of the Friedmann treatment were sufficiently advanced by May 16, 1913, to justify a report that the observations made up to that time did not warrant the confidence in the remedy which had been inspired by wide-spread publicity. This investigation is being continued, as are also studies of other preparations claimed as cures."

HOW ONE PRIZE ACRE WAS GROWN

Here is the process that is required before one acre of Fayette county land will produce 102.3 bushels to the acre. The process is told by Howard Vannorsdall, as follows:

"My acre of corn was grown on timothy and clover sod, which had been pastured for two years. The field has been under cultivation 45 years. It has been run hard until recent years. 25 spreader loads of manure were hauled on the acre in September, 1912. The ground was broke before the March floods, five inches deep. 300 pounds of fertilizer was sown before the seed bed was prepared. It was double cut May 8, 1913. It was dragged and planted May 12.

I used Reed's Yellow Dent and planted it 3 feet 4 inches apart both ways, three grains in a hill. I replanted all the hills having less than three stalks in a hill, May 30. I ran the weeder over it June 2. It was not cultivated till the corn was 4 inches high, June 10.

"The second cultivation was made June 17 and 18. It was laid by June 30.

"In July I cut all the weeds that I missed by cultivating. This was all the work I did on the acre.

"It made 102.3 bushels of shelled corn when husked.

"The trip gotten by me was given by The Washington Savings Bank, Washington C. H., Ohio and I desire to thank the Directors and Stockholders and Officers for their kindness."

FOYE OBJECTS

New York, Dec. 3.—James E. Foye, the young bank clerk who has been held here awaiting extradition for the larceny of money from the banking firm of Charles Brown & Company, and who had announced that he would not oppose extradition, changed his mind suddenly when a Philadelphia officer went to the Tombs to get him. His attorney sued out a writ of habeas corpus to prevent his removal to Philadelphia.

SEALED TO DIE

Salt Lake City, Utah, Dec. 3.—Deadly fumes of gases and volumes of smoke are creeping upon Raphael Lopez, the Mexican murderer of three peace officers and three others, who, like a rat in a corner, is fighting for life in the upper workings of the Apex properties, which are being sealed at every entrance and exit so that not one breath of fresh air can reach him. The entrances and exits are being made airtight in a last effort to suffocate the murderer.

A Square Deal for Our Merchants

After an unusually warm Thanksgiving season and winter sidetracked from her fierce onslaught of a few weeks ago, it takes the slogan "only a few more weeks till Christmas" to rouse Christmas shoppers to the fact that they must be up and doing.

Waking to the Christmas call, people will find that, far from being deceived by Spring temperature, Washington's progressive merchants have never been so fully prepared for the holiday season.

As if by magic the Christmas spirit is abroad. Our stores blaze with Christmas allurements and offer tempting and beautiful displays that might entice old Kris Kinkle himself.

Washington C. H. certainly ought to be proud of them, as they flaunt their splendid holiday raiment. They are by no means little town stores; they are establishments; splendid department stores of metropolitan scope and equipment; classy shops, offering choice selections, specialty stores of distinctive lines. They are stores which amaze the transient visitor in their magnificent showing and arouse wonder that Washington C. H. can vie with the large cities in her shopping facilities.

And she not only vies with them, she rivals them. Not alone is the very cream of the finest holiday wholesale markets skimmed by Washington merchants; the prices also give to local buyers great advantages.

A recent visitor from a large city was attracted to a holiday sale scheduled in one of our leading stores, and expressed unbounded surprise over the high class of goods and the low prices put on them. He said that he had attended many sales in his home city, but had never been offered such unusual values.

Undoubtedly Washington merchants have done their full part in preparing for the holiday season. They have put in wonderfully complete and beautiful stocks; they have given to local buyers the same opportunity to buy exclusive Christmas novelties that the people of far larger cities enjoy; they have put staple wares in the background so that the Christmas shopper may have every opportunity, and they have done all this at great expense.

The Christmas trade is by no means a paying one; it often entails loss and no small inconvenience; it means hard work and small profits.

Regardless of all these facts, Washington merchants have done their part to make the Christmas season a success.

How about the shoppers? Are they doing as much to give prestige to our city? Are they giving the merchants a square deal in boosting their beautiful home stores?

There may have been a time when it was necessary to visit Cincinnati, Columbus or Dayton to find large selections. It is so no more. We have stores that are as beautiful as any that these cities show, and altho there may be some larger, the selection is just as good and the class of wares just as high in our own city.

Be fair to the home merchants, who have done every thing to bring the best to the Washington shopper. If you want to visit other cities and see the Christmas displays, take an inventory before you go, and you will find that the novelties which attract in outside cities are duplicated right at home, and very often, at much lower prices.

It is to your interest to have the finest stores in this section of the state and you have them now and can keep them by giving merchants a square deal and encouraging them to continue their efforts by your patronage.

Every line of business would feel the benefit of a large Christmas trade at home. It is nothing more than a fact, and a very poor one, to do your Christmas shopping away from home and to put your money into channels from which you derive no benefit. It is anything but fair to let the kindly merchant wait until you find it convenient to settle your bill of many months standing, and then go off and spend your Christmas cash with a dealer whom you would not think of asking for accommodations!

Our merchants deserve better treatment—Give them a square deal.

America Needs Many More Skilled Workers

By RALPH ADAMS CRAM, Architect, of New York

THE American architect is handicapped almost fatally by the LACK OF GOOD ARTIFICERS to work out the detail. Apart from the industrial arts in their relation to architecture, their importance in this country, where art manufactures or art products are so enormously in demand, is too obvious to need demonstration.

NEARLY ALL OUR EXPERT LABOR IN THE ARTISTIC TRADES IS IMPORTED FROM EUROPE. WE PAY LARGE WAGES TO FOREIGN WORKMEN, BUT REFUSE TO EDUCATE OUR OWN PEOPLE SO THAT THIS FINANCIAL BENEFIT MAY ACCRUE TO THEM.

In other words, our prosperity results in benefiting the alien, and we allow our citizens to degenerate, furnishing no new employment for the rising generation, but fitting it only to those limited callings which already are overstocked and in which it can command but a minimum wage.

Poetry For Today

WHOM SHE'D MARRY.

I would not marry Adam Ant,
For he's too hard and cold.
Tim Idity I would not wed,
I like a man that's bold.

I do not fancy Nich O'Tine,
He smokes too much for me.
Jim Nast might win me if he tried,
But not Sol Emnity.

I'm rather fond of Jack Mino,
He brings me loads of flowers.
And Percy Vere has pleaded for
My hand for hours and hours.

I like dear, clever Hugh Morist,
He's genuinely funny.
As for my folks, they think that I'm
Cut out for Matt Rimony.

Phil Anderer I'd ne'er accept,
Tom Foolery is silly,
Dick Tator I could never stand,
I won't wed Willy Nilly.

I'd ne'er say "yes" to Dan Deffed.
I do not like a fop;
But I'd marry Corn Uopia
If Corn would only pop.

WOMEN ARE PEEVED

Washington, Dec. 3.—Chagrined at President Wilson's failure in his message to mention the development of the equal suffrage movement in the United States, the National Woman Suffrage association, now in session in Washington, passed by unanimous vote a resolution criticising the president and declaring that he had missed the opportunity of his life. The resolution was framed and presented by Dr. William Funk of Baltimore.

The resolution followed an expression of opinion by Dr. Anna Howard Shaw, presiding officer of the convention. She declared that the president had missed the great opportunity that came to him, adding: "Even Lincoln's opportunity to free a race by a word is not comparable with President Wilson's opportunity to release from the bondage of disenfranchisement half the human family."

INTERESTING BITS OF NEWS

(John E. M. Kerr.)

Two statements by Florence Curtin instructor in the University of Illinois in the November Pacific Libraries are of interest, taken together. The first statement is that "the men and women confined in our prisons are reading from three to five times as many books as the people in any community where libraries are easily accessible." The second statement is this: "There are prisons in which every class of undesirable books is largely represented; there is no prison library which does not have some upon its shelves."

American Federation of Labor has demanded exclusion of all Asiatics and a literacy test for Caucasian immigrants in a resolution adopted at Seattle last week. Also the convention instructed its committee to continue its efforts to obtain limitations of injunctions, workman's compensation for Postoffice employees, enlarged federal department of labor, a bureau of federal health, additional safety appliances on railroads, including automatic stops and abolishment of prison labor.

A GLIMPSE BACK THROUGH YEARS

(By John E. M. Kerr.)

July 11, 1872.

Washington some 40 years ago: In March, 1832, our old friend and present recorder, Mr. Z. W. Heagler, was declared Mayor and in April the council resolved "that they will not license any persons to retail liquor after July 1, next. On July 4, Judge McLean, the first corporation treasurer made his first report. The report read as follows: Cash received from the grocery license and license to exhibit public shows, \$38.75; from which deduct cash paid out on orders on file \$9.51, leaving a balance in the treasury of \$29.24. Taxes levied by this council was 2 mills on the dollar. This by the next report made a better and improved condition in corporation funds, for the balance in 1833 showed \$57.88 in the hands of the treasurer.

In April, 1833, the council proceeded to sell to the lowest and best bidder the building of an engine house 14 feet long, 8 feet wide and 8 feet high, to be located on the public square, adjoining Mr. Parvin's clapboarded log dwelling. The specifications were elaborately drawn, and we find the contract awarded to Thomas Holland, who agrees to furnish all the material and finish the building, according to the descriptions for the sum of thirty-nine dollars. Mr. Holland fulfilled his contract and was allowed seven dollars and fifty cents for extra work making the total cost of the engine house forty-six dollars and fifty cents.

SCORES DEAD

Boston, Dec. 3.—Many persons are reported killed in a fire in the Arcadia hotel, a South End lodging house. The police had a report that between 100 and 125 men were in the building when the fire started. They are able to account for only 50. The first ambulance took away 10 badly burned men. Firemen cooled down the burned stairways enough to venture to some of the upper stories to search the bedrooms there. They reported they could see between 15 and 20 bodies.

MISSING MAN IS FOUND IN A DAZED CONDITION

Excitement Created by the Mysterious Disappearance of Hugh C. Weir, Who Is Found Three Miles West of City and Relates Story of Being Kidnaped—Buffalo, N. Y., Attorney to Send Detective Here as Bodyguard.

After a search covering a period of several hours and lasting until between eight and nine o'clock Tuesday night, Hugh C. Weir, whose mysterious disappearance early Tuesday afternoon gave rise to the belief that he had met with foul play at the hands of enemies from Buffalo, N. Y., was found lying helplessly along the roadside near the residence of Lossen Coil, on the Sabina pike.

His disappearance Tuesday afternoon created no little excitement, and search was immediately instituted for him, but it was not until after eight o'clock at night that Mr. Coil telephoned to this city and informed Mr. Weir's friends that he had stopped there and was in a dazed condition.

An automobile was immediately sent out and the missing man was found on the roadside, in a semi-conscious condition, and was brought back to his home in this city, where he told a thrilling story of being kidnaped by three men in a dark-red, five passenger touring car.

While he was absent parties of friends were searching everywhere for him, and had learned that he had been out walking in the eastern part of town shortly after noon, but had then completely disappeared.

The story related by Mr. Weir when he had recovered, was that

while he was on North street, near the Baptist church, a touring car pulled up to the curb, and he was asked where the Methodist parsonage was, and that as he stepped up to the car he was seized and thrust into the car, a handkerchief crowded into his mouth, a rubber blanket thrown over him and he was whirled away. After considerable delay, due to retracing part of their journey and one man coming back to this city, and also a punctured tire, the machine started onward, with a man called Buck guarding him in the back seat.

"We had gotten a short distance when the man, who had secured my gun, attempted to light a cigar," he said, "and I took advantage of the opportunity to seize the gun and turn it upon him. We struggled for possession of the weapon. One shot was fired. I then gained possession of the gun and fired. The man fell back crying: 'My God, fellows! he's shot me'. I then threw myself bodily from the car. It was getting dark and I staggered back a short distance and hid in the ditch. The machine went onward. Then I must have fainted, but recovered and walked back a mile or so to a farm house, where they were afraid of me, and I started onward but fainted again and did not know anything more until assistance arrived."

Wednesday morning Mr. Weir was able to be about the house, and planned to drive out in a machine in search of clues.

Friends communicated with Collier's attorney at Buffalo, Tuesday night, and the attorney stated that he would send a detective to this city who had been held in readiness since the arrest of Mr. Weir in Buffalo two weeks ago.

GREAT SONG LEADER COMING

The congregation of the Church of Christ, Sunday morning, voted to call H. C. Boblett to lead the music for the church during the simultaneous campaign and Mr. Boblett has accepted the call.

He is not a stranger to Washington C. H. as he was here last summer and held a one-night sacred concert in Grace M. E. church, which will be recalled with pleasant recollections by the large choir and congregation that sang under his direction.

His addition to the force of workers will mean much to the meeting.

BLOOMINGBURG PLANS SPLENDID INSTITUTE

The annual Farmers' Institute will be held at Bloomingburg, December 22 and 23, and the probabilities are that a big corn show will also be held at the same time.

Efforts are under way to make the Institute even better than the one held last year, and those interested in making it a success are working with a vim.

This is the second annual Institute to be held in Bloomingburg and will be one of the best in the county this winter.

MRS. J. W. BLAND IS LAID TO REST

Mrs. Anna Cockerill Bland, wife of J. W. Bland, of Paint township, was buried in the Sedalia cemetery Wednesday afternoon, death having occurred Monday noon.

For a long time Mrs. Bland had suffered from Bright's disease. She leaves a husband and four children, besides five sisters and five brothers.

THIRD NUMBER OF LECTURE COURSE

Benjamin Chapin, whose reputation as an impersonator of Abraham Lincoln, is nation-wide, and who not only impersonates the great Lincoln on the stage, but lives Lincoln day by day, will appear at Grace church next Tuesday night as the third number of the Washington Lecture Course.

Those who have heard him pronounce him one of the most interesting platform attractions of the day.

OLD SUIT IS NOW UP FOR FINAL DECISION

Major George C. Parrett, Well Known in This City, Still Fighting for Fees Claimed to be Due Him for Services as Ross County Superintendent, Who Was Dismissed by Directors—Fine Points of Law Involved.

Local citizens will be interested in learning that Major George C. Parrett, well known former Fayette countian, is still fighting for what he believes to be his rights, in the Ross county court, where he brought suit several years ago against the Board of Infirmary Directors of Ross county for salary alleged to be due him.

The case was called in Common Pleas court Tuesday, and proceedings, are given by the Chillicothe News as follows:

"This is an old case, which has been up to the Supreme court on technical questions and has now been sent back on an amended petition. It has never been tried on its merits. Parrett was appointed superintendent of the Infirmary, Nov. 19, 1908, and took the place Dec. 5, of that year, succeeding O. M. Junk. A newly elected board of Infirmary Directors, by resolution, Feb. 15, 1909, removed Parrett, whose wife was acting as matron, and the removal became effective March 1, 1909. W. F. Seney was then named as superintendent.

Plaintiff sued the directors for \$500, claiming that he had a con-

tract for one year, at \$55 a month, and that the board had no power to remove him. The amended answer of the County Commissioners alleges that Parrett was removed for cause, and that, furthermore, he never put in a claim to the Commissioners as required by law. When the suit was brought it was against the Infirmary Directors and no claim was filed against them.

There seems to be no difference of opinion as to the facts in the case, and the question is mainly one of law, as to whether or not Parrett's employment by the old Board of Directors was a contract for a year, binding on the new Board, or whether the new Board had a right to appoint a superintendent, who they might reasonably believe, would be more in sympathy with them and work with them more harmoniously than one of an opposite political party.

Considerable trouble was experienced in securing a jury, and several special venirees were issued. The first called for Nelson Purdum, Jr., William Cahill, Hiram Streitenberger, Harry Levy, Richard Schachne, G. W. Goings, Frank L. Spetnagel, Leroy Reid and Watt Clark.

A jury was secured before noon and the taking of testimony began. The defense ended with its witnesses at 2 o'clock and the plaintiff was called to the stand. The case will probably go to the jury on Wednesday. Elijah Cutright, Jr., for plaintiff; County Attorney W. W. Boulger for defense.

MAP OF MEXICAN COAST, SHOWING POINTS OF TIMELY INTEREST.

Tampico, December 3.—Much of the interest in the Mexican situation centers in the coast cities off which the foreign warships are stationed and where United States marines may land at any moment. The accompanying map shows all these cities that are of any importance. Tampico and Tuxpan are the centers of the great oil industries, worth many million dollars.

In Social Circles

MISS FLORENCE USTICK, SOCIETY EDITOR

A wedding of widely extended social interest took place Wednesday afternoon, when Mr. Clarence Eli Craig, son of Mr. and Mrs. T. H. Craig, of this city, and Miss Edythe Susan Deafner, daughter of Mr. and Mrs. Henry Deafner, of Greenfield, were united in marriage at Hillsboro by the pastor of the M. E. church.

Mr. Craig, accompanied by his sister, Miss Mary, and brother, Robert, motored Wednesday morning to Greenfield, where they were joined by Miss Deafner and her sister, Miss Nelle Deafner, and the trip continued to Hillsboro.

After the ceremony, Mr. and Mrs. Craig took the train for Cincinnati, the rest of the party returning in the Craig car. Upon their return in a few days, they will go to housekeeping in the Kearney house on the corner of Market and Forest streets, their home completely furnished and in readiness.

The bridegroom is one of Washington's well known young business men the junior member of the firm of Craig brothers, and is popular in society and club circles, to which he has contributed the quick wit and clever repartee which gained for him unusual recognition in his college associations at O. W. U. and O. S. U. The bride is a charming girl, as bright and interesting as she is natural and unaffected. Frequently visiting here, she has made 'friend' galore in Washington society, and will find a most cordial reception awaiting her. The congratulations of a host of friends in both Washington and Greenfield are extended to the young couple.

Mrs. L. P. Howell entertained the women of the Wednesday Afternoon Euchre club at a charming luncheon of artistic appointments, Wednesday, at one o'clock.

It was a small table luncheon, each table having a dainty basket of Ward rose buds and smilax for its centerpiece.

The Browning club met last evening. President, Mrs. Kerr in chair. Mrs. Duff, secretary, read minutes of last club after which president announced the receiving of the Red Cross stamps and a most appreciative letter from the committee. The fight against tuberculosis is on and the fund from Red Cross stamps will aid both for nurses and medical care.

Two slides were sent and Mr. Johnson and Mr. Mark Mechlin are gratuitously making use of them in their picture theaters to display to all their patrons the Red Cross stamp. Committees appointed by president. Miss Goldie Baughn was the accompanist for trio of boy singers. David Craig, Malcolm Ross and Ira Parchet whose songs were greatly enjoyed.

Mrs. Morna Chapman, chairman, took charge of the History department, calling attention to the motto, "No worthy enterprise can be done without continued plodding."

Miss Faith Austin ably developed the topic, "Heroes of South America," beginning in what afterwards became United States of Colombia, under the lead of Don Simon Bolivar, called the Washington of the South. Bolivar went to Europe and became a lawyer and coming to know Napoleon, he took oath to follow his example in France and free South America from the yoke of Spain. In Venezuela he

formed a junta, and Carracas became the first free city. Among the heroes Don Pedro II stands out prominently, coming to throne in Brazil at age of 14 years and Don San Mark who made great efforts for his own country, Chili, and is said to rank with Pericles and the Gracchi.

Miss Goldie Baughn gave a paper on the contrast between North and South America, marking the points of the different climates, vegetation, animal life, extremes of climate are not found in the south as in the north. Such trees as the rubber, and ebony are beyond what the north can give and rich mineral fields beyond the telling.

Mrs. Mae Rogers gave an effective picture of the Gettysburg reunions and what they stand for today when, as at the last one, some 55,000 were gathered from the four corners of the compass, old wounds healed and the men who fought so bitterly met in sweet reunion.

Before adjourning the president called attention to the "Humane Society" of our town and their work and urged membership.

Mrs. John Logan complimented Mrs. George Wood, of Wilmington, and Miss Belle Hibben, of Cincinnati, the guests of Mrs. Alex. Ballard, with an elaborate luncheon at the Cherry Hotel today.

A "bean supper" was the feature of the regular monthly meeting of the teachers of the Presbyterian church Tuesday night, and much enjoyed. It was the last meeting with the retiring superintendent, Mr. Ray F. Zaher. Mr. M. E. Hitecock will fill the office of superintendent for the coming year.

Mrs. H. H. Whelpley pleasantly entertained the girls of the Algonquin club at a delicious supper Tuesday evening in honor of the 12th birthday of her granddaughter, Marion Whelpley.

A big birthday cake was lighted with 12 pink candles and a pink and white color scheme carried out. A number of pretty birthday gifts were received.

BROWNING WOMEN WILL SELL STAMPS

The Browning club women are now engaged in a genuine campaign for the sale of Red Cross stamps for the Christmas season.

Last year this club sold 5000 seals and this year is determined to sell a seal for each inhabitant, which will entitle Washington C. H. to the services of a Red Cross nurse for a month.

The splendid fight waged against tuberculosis all over the United States derives great aid from the funds raised by the sale of Red Cross seals. It is to be hoped that our citizens will actively co-operate with the Browning club.

Seat Sale for "The Village Post-office" opens at Baldwin's drug store at 9:30 Thursday morning.

Admission tickets are on sale at Parrett's grocery, Craig Bros., Cockrell's grocery and the Commercial bank.

HANDSOME SABLE SET

Though Russian sables cost a small fortune, there are other so called sables on the market that are more reasonable in price. Illustrated here is a sable stole and muff of what is known as Hudson sable. The little toque worn with it is trimmed in military style and with fur to match the set.

The most expensive thing in the world is getting even and it is hardly ever worth the price.

CITY FALLS AT FEET OF VILLA

El Paso, Tex., Dec. 3. — With the federal out of Chihuahua, residents of that city sent a messenger to Juarez to invite Pancho Villa to come in and invest the town with his rebel army. The messenger arrived in Juarez after making a trip by automobile from Chihuahua city, and presented a signed address to Villa inviting the rebel chieftain to come and take charge of the town.

General Villa loaded his cavalry and artillery on trains, and declared he would be in Chihuahua by Thursday. He will establish himself in the governor's palace there as the new provisional governor of the state of Chihuahua.

Fourteen years ago General Villa was forced to flee from Chihuahua city as a bandit upon killing an army officer for insulting his sister, and he has never been inside the city since that time except once, when he slipped in and killed the police chief for threatening to kill him.

The sum of 5,000,000 pesos, or more than \$2,000,000 gold, the property of General Luis Terrazas, aged Chihuahua multimillionaire, is being carried overland from the city of Chihuahua to the American border by the federal army of 1,500 men, under General Salvadore Mercado, who evacuated the state capital Sunday and struck out for the border at Villa Ojinaja, according to word received by General Pancho Villa at Juarez.

The aged general and many relatives, who have been virtual prisoners in the capital for six months, are with the federals.

General Villa announced that within 10 days train service would be resumed from Juarez to Torreon. Torreon is 527 miles from Juarez and is one of the principal mining towns in northern Mexico. Villa added that Chihuahua will be made the provisional capital of the Constitutional government.

REACH THE GOAL

Washington, Dec. 3.—The Ohio Corn Boys' club, 1,600 strong, arrived here today after an uneventful trip from Harrisburg. While here the boys will be received by President Wilson and Secretary of State Bryan. The boys remained two hours in Harrisburg last night. The party was welcomed by a committee of the Harrisburg board of trade, and at the capitol the boys were complimented upon their skill as farmers by Secretary of Agriculture N. B. Critchfield, Governor Tener, who said that it was to the glory of the state that so many of the rising generation were interested in agriculture, and former Governor Samuel W. Pennypacker. All the speakers praised the Ohio idea of encouraging agriculture by means of corn-growing contests. After the ceremonies the boys paraded the streets through cheering crowds.

TO RESIST ARREST

Plymouth, Dec. 3. — It is believed that when the liner Majestic arrives here, Mrs. Emmeline Pankhurst, who is returning from her tour in America, will be arrested and sent back to jail to complete her sentence of three years' imprisonment for inciting her followers to violence.

The militants here have posted bills on the walls calling upon the public to go to the dock when the steamer arrives and back them up in their fight to have Mrs. Pankhurst set at liberty.

FACTS REGARDING XMAS PACKAGES BY PARCEL POST

Washington, D. C., Dec. 3.—During the next four weeks Uncle Sam's infant prodigy—the parcel post system—will be called upon to perform a herculean task in connection with the transportation and delivery of millions of Christmas gifts.

Christmas parcels should be mailed early. For local delivery they should be mailed not later than December 23d and for out-of-town delivery as early as possible, but in any event in time to reach the offices of destination at least two days prior to Christmas.

Christmas gifts sent by mail should be wrapped securely. The containers or wrappers should be sufficiently strong to withstand the necessary handling incident to transportation and delivery.

Glassware, crockery, Christmas toys easily breakable, glass framed pictures, etc., should be carefully packed in boxes of metal, wood, leather, or corrugated pasteboard with sufficient excelsior, raw cotton or similar matter to prevent the contents from coming into contact with any portion of the box. These parcels should be marked "fragile." Postmasters will refuse to accept for mailing packages that are insecurely prepared.

Parcels should be addressed plainly. The addresses should be complete and plainly written in ink. The regulations require that parcel post packages shall bear the names and addresses of both the sender and the addressee. If a tag is used the names and addresses of the sender and the addressee should also be written on the parcel itself.

Parcels sent in advance of Christmas may be marked "Not to be opened until Christmas," or some similar direction. Written or printed messages such as "Merry Christmas," "Best Wishes," etc., may be inclosed in parcels but no other written or printed communication should be placed therein, as this will subject the parcel to a higher rate of postage. Parcels should not be sealed or otherwise closed against inspection. Sealed parcels are subject to the first-class rate of postage.

Photographs, printed books, and other printed matter are not included in the parcel post but are third-class matter on which the postage

AS MOTHER GOOSE WOULD HAVE SAID.

—Rogers in New York Herald.

rate is one cent for each two ounces or fraction thereof.

Parcels not exceeding four ounces in weight may be mailed in street boxes, when prepared in conformity with the foregoing requirements. The postage on such packages is uniformly one cent for each ounce or fraction thereof. Parcels weighing more than four ounces are mailable only at the Main Office or its Stations.

Ordinary postage stamps are valid for postage on parcel post matter. Christmas stamps or stickers of any kind other than postage stamps should not be placed on the address side of mail matter as this renders such matter unmailable.

Valuable parcel post packages may be insured against loss in an amount not exceeding \$25 on a payment of a fee of five cents in addition to the postage, and for a fee of ten cents such packages will be insured in any amount not exceeding \$50.

GENERAL STRIKE IN AID OF DRIVERS

Indianapolis, Ind., Dec. 3. — One rioter killed, four others wounded, the teamsters appealing to other organizations for a sympathetic strike, their leaders asking that employers arbitrate, and a squad of police armed with riot guns patrolling the streets, are the principal developments of the teamsters' strike.

In all parts of the city drivers were taken from wagons, horses were cut loose from wagons, gasoline was drawn from tanks of trucks and traffic rendered dangerous and in many places impossible. There have been no collections of garbage even from the hotels since Saturday, and this is causing great inconvenience, especially as the weather is unseasonably warm.

The laundries have quadrupled their forces and are gathering their patrons' clothing with men on foot and placing it in bundles at designated places, from which automobiles under protection of the police take it to the laundries. Bakery goods are scarce and the mills are not delivering any flour to the groceries.

The most serious riot of the day occurred on Indiana avenue when an ice company, having provided four well-armed men, attempted to make a delivery. A crowd followed and began to stone the men on the wagon. Two of them were struck, and as they rose all of them drew revolvers and began firing. Claude Lewis, 21, was instantly killed; John Ashley was shot in the leg, J. H. Mason in the abdomen, Archie Smith in the shoulder and A. E. Sedam in the neck. It is thought Mason will die. While the four men were still firing the police arrived and the crowd scattered. The ice wagon drivers were taken to the police station, where business men appeared as bondsmen.

Fifty business men, with horses, were sworn in as the citizens' cavalry. They volunteered to assist the mounted police. Thus far the regular police have been able to handle the situation without calling out the business men's reserves, numbering more than 700.

An effort to call a general strike, in sympathy with the teamsters and chauffeurs' strike, was started at a meeting of the teamsters' union. No definite action was taken, it being decided to wait until the union officers had conferred with the leaders of the central labor union.

BELIEVED INSANE

Kenton, O., Dec. 3.—William Lawless, 46, is at the local hospital with gun wounds in his head as the result of a struggle at his home, north of here. Lawless appeared in the kitchen of his home with a gun, according to his wife and father-in-law, William Ralston. Believing that Lawless was about to shoot them they grappled with him. During the struggle the gun was discharged, they say. Mrs. Lawless and her father declare Lawless is insane.

FLAT RAIDED

Columbus, O., Dec. 3.—Silverware and jewelry valued at \$2,000 were recovered in a raid by police on what is believed to be one of the biggest fences ever conducted in Columbus. Tom C. Pennybacker, who is alleged to be a gambler, and his wife, Nanette Pennybacker, the couple from whose flat the stolen articles were recovered, are under arrest.

While a curious crowd stood about the door leading to the flat the police carried out suit cases packed with valuable plate and loaded them into waiting automobiles. The five-room flat, which was richly furnished, was dismantled.

Important Notice To Skin Sufferers

Try this New Remedy at Our Risk

We know the successful treatment of Skin affections is difficult, and so much money is spent by sufferers without getting relief, that they are becoming skeptical and know not what to believe.

Our Generous Offer

Know, therefore, all persons who have any Skin affection that we will supply them with our new and wonderful remedy—Saxo Salve—on the positive guarantee—that if it does not benefit them we will refund their money as cheerfully as we took it.

There is no remedy that will cure every disease—but there are some that we know to be honest, reliable, and of great curative value. Such is Saxo Salve. No Skin Sufferer should therefore hesitate to try Saxo Salve on this generous offer. We take all the risk and bear all the expense if Saxo Salve fails—but as it succeeds in over 90% of the cases our risk is not great at all.

HUNDRED OWE LIFE TO GIRLS

Fort Worth, Tex., Dec. 3.—Girl tel-
ephone operators at Belton saved a
hundred lives by refusing to leave
their switchboards until they had
warned all families possible of the
onrushing flood in Nolan creek and
the Brazos river, which swept 11 per-
sons to death there. Farmers up and
down the valley were awakened by
the girls and told to flee for their
lives.

Many of the planters at first de-
clined to believe the operators, as a
few hours before the river was nor-
mal. The girls pleaded with them
and begged them to awaken others
in their neighborhoods who had no
phones. The girls awoke large num-
bers in the city and took neither rest
nor food until their warnings had
been sent broadcast. Many of the
homes where warnings were tele-
phoned were later swept away by the
floods. Sixty thousand dollars prop-
erty damage was done in Belton and
the large steel bridge across the
creek collapsed. The rise was 30
feet, the biggest ever known in the
history of the state. Mrs. W. C. Polk
and four young children were drown-
ed when their home was caught by
the flood. A family of five campers
also were drowned, as was an uniden-
tified man.

MAKES PLEA FOR SUFFRAGE

By Associated Press.

Washington, Dec. 3.—When wom-
en have the vote, Mrs. Joseph T.
Bowen, of Chicago, told the National
Suffrage Convention today, they will
give members of their own sex a fair
show in the police courts. Mrs.
Bowen urged the need of women po-
lice, women jurors and reform of the
courts and penal institutions to help
women and children.

"From the time of the arrest of a
woman," said Mrs. Bowen, "to the
final disposition of her case she is
handicapped by being in the charge
of and surrounded by men, who nat-
urally cannot be expected to be as
sympathetic and understanding as one
of her own sex. In the police station
she is at a disadvantage, for such
places of detention in most of our
large cities are not fit for human
habitation. In Chicago the majority
of them are dark and unsanitary.
The women are herded together, the
innocent with the guilty, the clean
with the unclean, the young girl
with the prostitute. The sleeping
accommodations are vile.

"When the woman appears for her
preliminary hearing she is tumbled
and untidy as the result of being
without proper toilet accommodations
and is therefore apt to create an un-
favorable impression. In all police
stations separate rooms or cells
should be provided, with plenty of
light and air and sleeping and toilet
accommodations for the women."

Mrs. Bowen told of what had been
done to meet this situation in Chi-
cago, by the establishment of the
Court of Domestic Relations and the
Moral Court. The latter hears the
cases of women charged with im-
proper conduct.

The percentage of mental deficien-
cy is greater among women inma-
tes of correctional institutions,
she said, than among the men. "If
women fall and commit crimes be-
cause of this mental deficiency it
would seem more than ever necessary
to have them examined by a psych-

WAVERLY MURDER

Waverly, O., Dec. 3.—John Hall, 24,
colored, whose home was Charlotte,
N. C., was shot through the back and
instantly killed by a negro whose
identity is unknown. The shooting
occurred in a construction camp car
in which a number of laborers were
playing cards.

LAMP EXPLODES

Kenton, O., Dec. 3.—The explosion
of a coal oil lamp in an incubator on
the Paul Casper farm, east of Ken-
ton, may cost the life of Mrs. Casper.
Her clothing was almost burned from
her body. Her husband beat out the
flames and then extinguished the fire
that spread to his own clothing and
to the hay in the barn, where the in-
cubator was located.

PRESIDENT ILL

By Associated Press.

Washington, D. C., December 3.—President Wilson is confined to the White House today with a severe cold. Physicians believe he will be all right tomorrow.

ACCUSES HUSBAND OF LEAVING HER

In a suit filed by Maude M. Landrum, asking divorce and alimony from Joseph Landrum, the plaintiff accuses the defendant of wilfully absenting himself for the past three years.

They were married in August, 1907, and have three children. Rankin and Rankin are attorneys for the plaintiff.

SCAFFOLD BREAKS PAINTER INJURED

William Dyer, a painter, was painfully bruised and suffered a broken knee-cap shortly after noon Wednesday, when a scaffold upon which he was standing gave way and he fell some 12 or 15 feet to the ground.

He was taken to the Hodson hospital where the injured limb was dressed.

TAX COMMISSIONER IS NOW IN OFFICE

Mr. J. C. Dunn, recently appointed tax commissioner for Fayette county has filed his bond of \$5000, and it has been accepted.

Mr. Dunn's term of office commenced the first of this month and continues indefinitely.

A large number of applicants have already presented themselves for appointment as assessors, but so far no appointments have been announced.

NEW MEMBERS ARE ADDED LAST NIGHT

The Fish and Game Protective Association had their monthly meeting last night with a good attendance.

Nine new members joined and G. C. Gooderl, the new game warden, was present. The association now has 40 members with new ones added almost every day. All good citizens who believe in the protection of fish and game are invited to join.

LAST SHOT KILLS BEAR.

Final Bullet Fatal to Charging Bruin Thirty Feet From Lad.

Portland, Ore.—Percy, the twenty-year-old son of C. S. Hill of Hoke Point, Wash., in Cowlitz county, shot what is believed to be the largest bear ever killed in that section.

The young man had to fire seven shots with his 30-30 rifle to end the life of the monster bruin, which charged him from a distance of 300 feet after his first shot had wounded it. The seventh bullet broke its back and laid the animal low when it was within thirty feet.

Percy, in great excitement, ran two miles in seventeen minutes to his father's home with word that he had killed "the largest black bear in creation." After the brute had been skinned and dressed the meat of its carcass alone weighed 225 pounds.

Our neighbors seem to think that one good turn deserves ten others.

BLOW UP WARSHIPS BY WIRELESS NOW

New Invention Is Secretly Tested In England.

London.—An invention which, when fully developed, promises to reform war has been given a successful test off Portsmouth. Although the admiralty has attempted to keep the matter a secret, it is now definitely known that a mine attached to the bottom of the British cruiser Terpsichore was exploded at a distance of eight miles by wireless impulse.

Some weeks ago the Terpsichore, a third class cruiser of 3,400 tons displacement, 300 feet long and forty-three feet beam, was taken into dry dock, where dockyard hands attached a metal box to her bottom. The cruiser was towed to Stokes bay. Her watertight compartments were then closed and all members of the crew left the ship.

A few moments later the Terpsichore half rose out of the water amidst a vast upheaval of water. She at once took a heavy list to port and five dockyard tugs came to her assistance, keeping her afloat with their pumps while they towed the sinking cruiser into Portsmouth.

LOSES FEET AND WATCH.

Burglars Cut Off First and Thief Takes the Other.

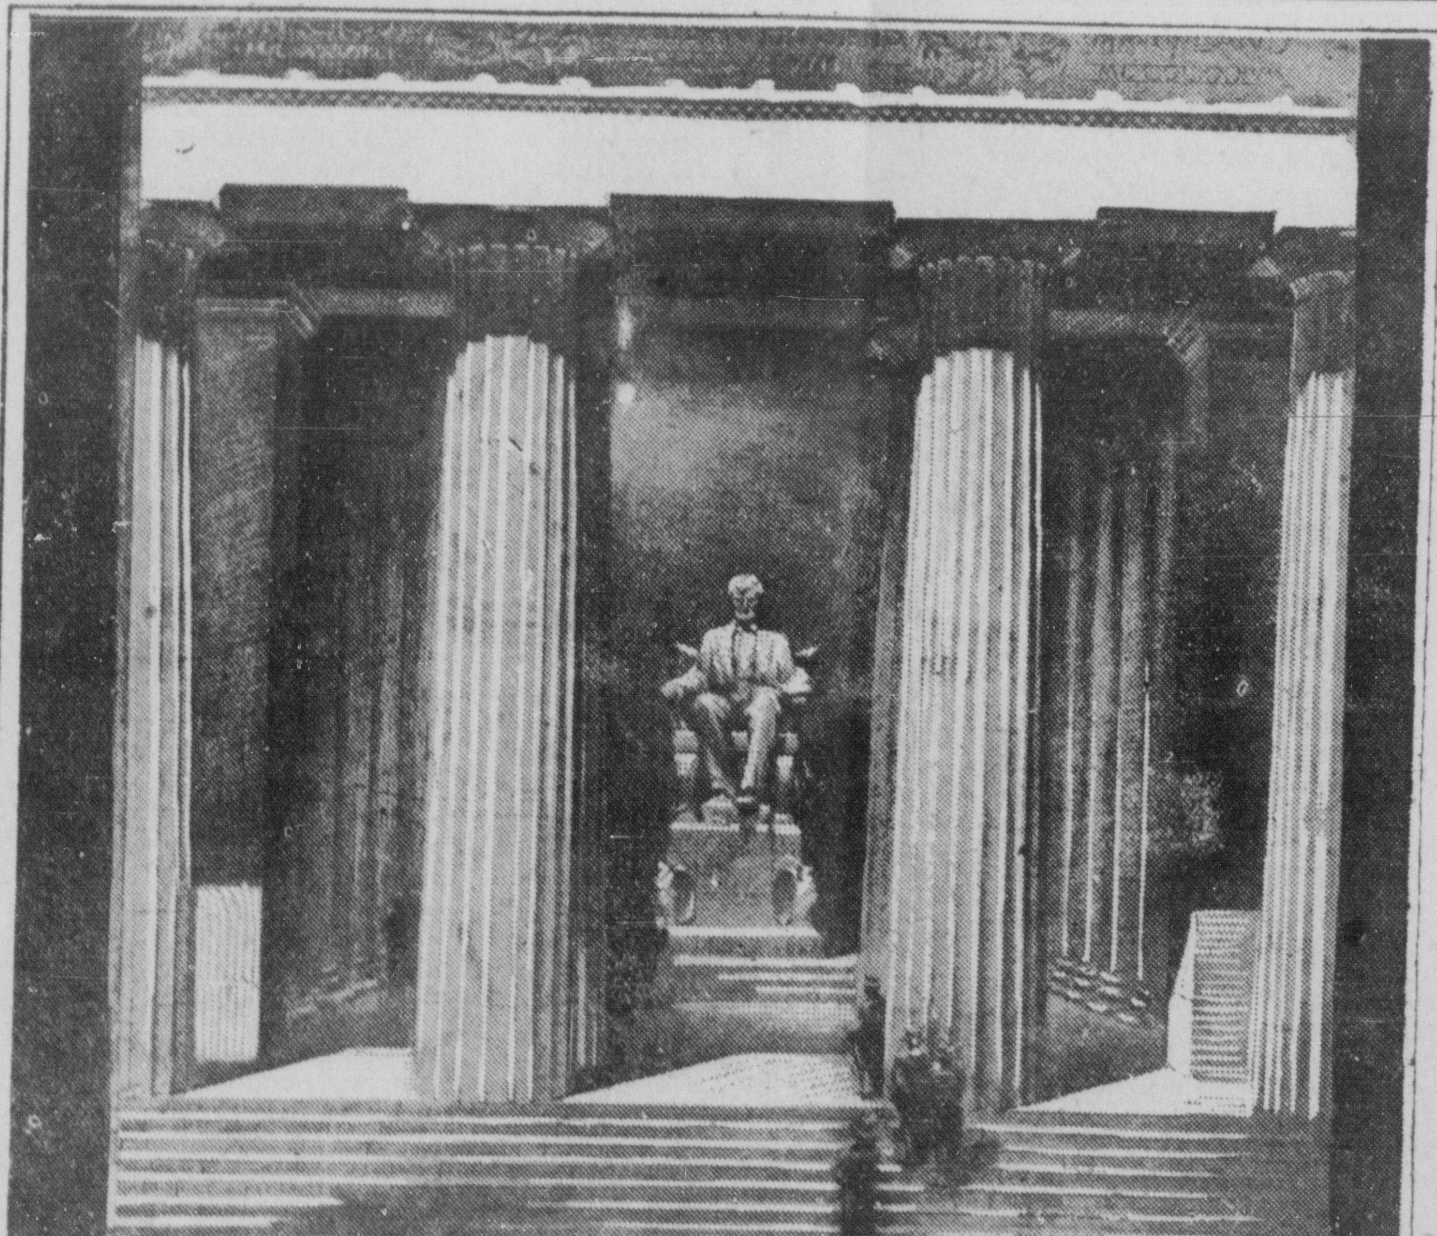

Philadelphia.—While surgeons of a hospital in this city were amputating the feet of John Guest, who was run over by a train at Bangor, Pa., his gold watch was stolen from his pocket. When he recovered consciousness from the anesthetic he missed the time-piece, and the loss caused a hurried search, but nothing could be found to explain the loss.

Suspicion fell on Paul Reiker, an orderly at the institution. He was arrested, confessed and was held for trial. This led to the discovery that another patient, Frank Price, was robbed of a diamond stickpin while under the influence of ether in the surgical ward, and Reiker also confessed that theft.

The British government is considering an auxiliary motorboat reserve for service in case of war.

Norway produces enough hay for home consumption and exports quantities to countries farther south.

How the \$2,000,000 National Lincoln Memorial At Washington Will Look; Work on It Starts Soon.

Work will shortly be started on the erection of the great national Lincoln memorial at Washington. These pictures show how it will appear when completed, based on the architect's drawings. A general view of the memorial is shown, disclosing its dimensions and structural beauty. The other shows a close view of the front. Mounting the steps, the visitor will at once confront an imposing statue of Lincoln. The memorial is modeled after the Parthenon. It will be built of Colorado marble and will cost nearly \$2,000,000. The site is in Potomac park, and the building will be 256 feet long and 188 feet wide. Its height from the base to the top of the memorial hall will be ninety-nine feet.

On Trail of Swindlers.

Cleveland, O., Dec. 3.—The police believe that in the arrest here of a Cleveland real estate dealer's son they have stumbled on the trail of a gang of swindlers who for months have been victimizing business men throughout the state. The gang's headquarters are said to be in Akron, where a clearing house is maintained for the purpose of reshipping goods obtained in all parts of the state.
